

Version 1

Help Patients Find You with Find-a-Dentist on ADA.org

ADA.org is better than ever – providing more resources and tools that can directly benefit your practice including the enhanced Find-a-Dentist feature. Nearly 20,000 unique visitors search Find-a-Dentist on ADA.org each month. Potential patients can learn more about your practice, but can only view the information you provide. People turn to the Web to help them make decisions. Update your profile and give residents in your community reasons to select you as their new dentist.

Find-a-Dentist allows patients to view:

- Photo of you
- Your office address with map
- Office hours
- Office contact information, including a link to your practice Web site
- Education and Specialty
- Languages spoken
- Years in practice
- If your practice accepts insurance
- Types of payment accepted
- Your affiliations with any of the nine ADA recognized specialties

Give you and your practice added exposure – it's free and only available to ADA members.

Visit ada.org/memberprofile to manage your profile.

Version 2

Help Patients Learn About You

The enhanced Find-a-Dentist on ADA.org allows you to upload your photo, add a practice description, include your education information, and inform your patients of your office hours, languages spoken, and if your practice accepts insurance. With nearly 20,000 unique visitors searching Find-a-Dentist on ADA.org each month, it can add valuable exposure for you and your practice. Patients accessing the Find-a-Dentist feature can search for a provider by practice location and dental specialty. Give you and your practice added exposure – it's free and only available to ADA members. Visit ada.org/memberprofile to manage your profile.
