## Learning Objectives for CE Credits

At the end of the symposium the participant will be able to:

- Utilize the resources provided to build upon existing programs through collaboration.
- Use knowledge gained to partner and mentor dental students that are new to the field of public health dentistry.
- Examine how case management practices can lead to success for the program and the families.
- Choose the most effective way to recruit dental volunteers.
- Examine how data collection can move your program to the next level.
