*Customer savings example Based on student loan refinancings of DMD and DDS degree holders closed by Darien Rowayton Bank from September 2015 to December 2016 where the borrowers' previous rates were provided. Assumes borrowers' previous loans were the same term as their DRB loans and that borrowers will pay their DRB loans according to schedule through to maturity without prepayments. Total savings based on student loan refinancings of ADA members closed by Darien Rowayton Bank since the program's inception where the borrowers' previous rates were provided. Assumes borrowers' previous loans were the same term as their DRB loans and that borrowers will pay their DRB loans according to schedule without prepayments. Total savings equals the average borrowers savings resulting from the 0.25% rate discount, multiplied by the total number of ADA borrowers that have closed a loan with DRB since the affiliation's inception. Savings as of 1/1/17.
