Reimagining the American Dental Association of Tomorrow

✓ Revitalizing the ADA Business Model

Dr. Doroshow proposes an evolutionary business model that shifts away from traditional membership and rekindles ADA's engagement with all dentists. A renewed focus on ADA's five pillars:

Advocacy • Accreditation • Testing • Science • Standards

These priorities will ensure that the ADA remains a vital force for dentistry today and for generations to come.

✓ Oral Health Across America – A Wellness Imperative

With half of America lacking consistent dental care, Dr. Doroshow remains steadfast in her belief in the ADA's mission to stand as the foremost advocate for oral health care. She sees it as paramount to bridge this healthcare gap, spotlighting the integral role of oral health in overall well-being.

✓ Empowering the Next Generation to Lead

Dr. Doroshow believes in amplifying the voices of our newest professionals to elevate the ADA for the future. She dreams of an ADA Board with three new dentists at the table within the next five years, without carve-outs or bylaws changes. Let's blend the wisdom of experience while embracing the vitality of youth.
