ADMISSION TEST for DENTAL HYGIENE (ATDH)  
TEST CONSTRUCTORS SELECTION CRITERIA

The following are the specialty areas and selection criteria for the Admission Test for Dental Hygiene (ATDH) test constructors:

General Biology

1. High school biology teachers
   a. Master’s degree or higher in biology
   b. At least five years of experience within the last seven years teaching biology at the high school level
2. Post-secondary biology teachers
   a. Ph.D. in biology
   b. At least three years of experience within the last five years teaching or in research in biology at the post-secondary level
3. Dental hygiene program directors
   1. Current program director at a Commission on Dental Accreditation (CODA) accredited dental hygiene program

General Chemistry

1. High school chemistry teachers
   a. Master’s degree or higher in chemistry
   b. At least five years of experience within the last seven years teaching chemistry at the high school level
2. Post-secondary chemistry teachers
   a. Ph.D. in chemistry
   b. At least three years of experience within the last five years teaching or in research in chemistry at the post-secondary level
3. Dental hygiene program directors
   a. Current program director at a Commission on Dental Accreditation (CODA) accredited dental hygiene program

Quantitative Reasoning

1. Master’s degree or higher in mathematics
2. At least three years of experience within the last five years teaching or in research in mathematics.
3. Familiarity with the content of basic college math courses
