1. Introduction

The American Dental Association (ADA) and CAQH are working together to make it easier for dentists to enter and share their professional and practice data with dental plans and other healthcare organizations by utilizing the CAQH Provider Data Portal. Dentists can enter their professional and practice information one time and submit it to multiple participating dental plans and organizations, reducing their administrative burden and speeding the credentialing process. This data can also be used to update provider directories and other business needs.

This service works with information that U.S. practicing dentists have already entered into their profile on ADA.org/godigital. After logging into My ADA, and accepting the terms and conditions, dentists will be redirected to the CAQH Provider Data Portal Welcome Page. There, they may see certain prepopulated information from the ADA - or the information they attested to previously - making it easier and quicker for dentists to complete and attest to their CAQH Provider Data Portal profile.

The purpose of this document is to assist you as a Practice Manager in using the CAQH Provider Data Portal for Practice Managers. The portal is designed to allow for common information to be entered at one time for multiple dentists. There is no need to fill out redundant information for each dentist practicing in your office.

Note: Practice Managers for dentists follow the same process in entering and exporting information as for other healthcare providers

1.1. CAQH Provider Data Portal Overview

The CAQH Provider Data Portal is the healthcare industry's premier resource for dentists and other healthcare providers to self-report professional and practice information to payers, hospitals, large provider groups and health systems. The CAQH Provider Data Portal eliminates duplicative paperwork for these organizations that may require provider profile information for credentialing, directory services and other business uses.

If you are an office manager or administrator who assists with gathering information for credentialing or other administrative purposes for multiple dentists, the CAQH Provider Data Portal for Practice Managers may facilitate your data entry process. This information will, in turn, become part of each dentist's profile, to which they will attest.

The CAQH Provider Data Portal for Practice Managers can be accessed at https://proview.caqh.org/pm. The following steps provide you with a high-level overview of the process flow when using the CAQH Provider Data Portal Practice Manager Module.

- 1. A dentist is added to the CAQH system either by self-registration at ada.org/godigital or via a health plan request.
- 2. Using the CAQH Provider Data Portal for Practice Managers, the Practice Manager logs in and completes common sections for multiple dentists.
- 3. The Practice Manager adds the applicable dentist to the "Provider List".
- 4. The Practice Manager exports the applicable sections and indicates which dentist from the "Provider List" the data should be exported to.
- 5. The dentist logs into the CAQH Provider Data Portal for Providers, reviews the available exported data, and then can choose to import the data into the data profile.
- 6. The dentist completes any remaining required fields and the authorization section, which allows health plans access to the data profile.
- 7. The dentist completes the attestation and uploads any required supporting documentation.
- 8. CAQH reviews the dentist's supporting documentation for quality.
- 9. The dentist status is marked "Initial Profile Complete" or "Reattestation". (See Appendix for full list of provider statuses).
- 10. The completed dentist data profile is available to the Participating Organization.

This document will provide additional information and helpful tips for each of the steps that relate to the Practice Manager Module. To learn how dentists use the CAQH Dental and Specialty Credentialing Portal, please refer to the CAQH Provider Data Portal Dentist User Guide.

2. Registration

2.1. New Users- Administrators

You may begin the self-registration process by accessing CAQH at https://proview.caqh.org/pm and selecting "Click here to register.". All users who self-register will automatically be established as Administrator user accounts, which allows for access to add or edit "child" user accounts.

2.2. New Users

Once the Administrator has established an account, the Administrator will be able to add other Administrators or Basic Users to the same account. A Basic User cannot add or edit other users but will have all other privileges and views as the Administrator.

When a new user is created in the portal by the Administrator, CAQH will send an email to the email address of the newly created user. New users will complete their registration with the CAQH Provider Data Portal for Practice Managers by selecting the link contained in the e-mail. You will be prompted to update your username and password at this time. Refer to "Creating a CAQH Provider Data Portal Username and Password" on page 6 of this guide for the next steps in the process.

2.3. Self-Registration

Users who self-register with the Practice Manager Module will need to complete the CAQH Provider Data Portal for Practice Managers Self Registration screen. This includes completing your practice information. The fields marked with an asterisk (*) are required.

The Home page displays five components:

- 1. **Exports –** The Exports section displays a summary of recent exports, the related user who performed the export, and the date exported.
- 2. Manage Users This section displays a list of most recent users, their roles and statuses. Only Administrators can view the Manage Users section.

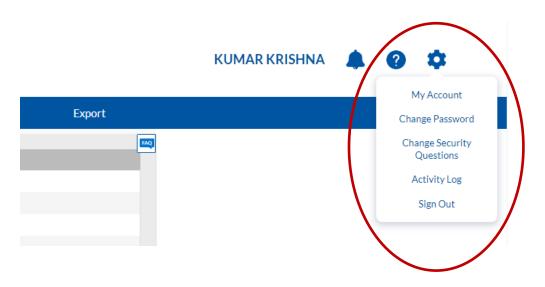

- 3. Message Center The Message Center section displays messages related to your account.
- 4. Activity Log The Activity Log section displays recent users who have logged into the account and recent activity within the account.
- 5. Bulk Upload Exceptions This section displays a list of Exception Reports from a Bulk Upload processed file. Only users with Bulk Upload access can view the Bulk Upload Exceptions section.

In addition, to these components, across the top of the Home page is a navigation menu, which allows you to navigate to the four sections of the Practice Manager Module:

- Manage Users Administrator Users can click here to add or edit account users (see Chapter 4).
- Manage Practice Click here to enter information common across multiple dentists (see Chapter 5).
- Manage List Click here to add, edit, and delete dentists on your provider list (see Chapter 6).
- Export Click here to begin the export data process to multiple or individual dentist accounts (see Chapter 8).

To add a user, complete the fields and click on "Add User".

- Fields marked with an asterisk (*) are required.
- At the bottom of the screen, you may define the user role as another Administrator or as a Basic User. The only difference between these roles is that Administrators are able to view the "Manage Users" section.
- You can also select the check box if the user needs Bulk Upload functionality. If the check box is selected, the system will notify CAQH to review the user's account for Bulk Upload functionality. CAQH will then review the user before granting or denying Bulk Upload functionality.

4.4. Edit User

The Administrator can edit user information by selecting a username in the "Manage Users" screen.

5. Manage Practice

From the Home Page, click on "Manage Practice" on the top navigation bar to begin to enter data common across multiple providers. You can create and save the four common provider profile information sections which include the following:

- Credentialing Contact
- Practice Location
- Hospital Affiliation
- Professional Liability Insurance

| CAOH. PROVIDER DATA PORTAL | | | |

Tips:

- Throughout the system, fields that a dentist will be required to enter prior to attestation are indicated with a red asterisk (*).
- If you need assistance, you can access the "?" link that is displayed on the right-hand side of the screen.
- Use "Go to previous section" or "Save & Continue" to page forward or backward within sections.
- It is important to click on the "Save & Continue" button to save your information. If you close the browser without clicking "Save & Continue", you will lose your information.

5.1. Add List

From the screen above, select "Add List" to create a practice group name and its associated practice state. In the CAQH Provider Data Portal, you will need to maintain state specific lists to drive any state mandated or voluntary form questions. Once you have added that information, select "Save".

ADD LIST

| List Name* | |

The following screen will display, summarizing the practice groups you have created.

- Click "Add List" to add an additional practice group to your list.
- Click "Edit" to edit the name of a practice group within your list.
- Click "Delete" to delete the practice group from your list.
- Use the "+" sign to expand and view the common sections within each practice group.

| 0 | test april (AE) | 2 Edit X Delete |
| 0 | Hospital affil (OK) | C Edit X Delete |

Within each practice group, there are four common sections where you may enter data for multiple dentists.

- 1. Credentialing Contact: used to create multiple Credentialing Contacts within each list.
- 2. Practice Location: used to create multiple Practice Locations within each list.
- 3. Hospital Affiliation: used to create multiple Hospital Affiliations within each list.
- 4. Professional Liability Insurance (PLI): used to create multiple Professional Liability Insurance accounts within each list.

The information entered and saved in each of these sections can be exported to a single dentist or multiple dentists.

- To expand within each section, use the show more (+) button for a specific list.
- To add data to a section, click "Add".

When you click on the show more (+) button, the applicable section will expand. Below shows an example of the Practice Location section expanded. Within each section you can perform the following:

- Select "Edit" to edit the information within a practice location.
- Select "Copy" to create a duplicate of a practice location and its related information.
- Select "Delete" to remove a practice location. Please note that by selecting "Delete", all information entered for that practice location will be deleted.

The following pages provide helpful tips on completing each of the four common sections.

5.2. Credentialing Contact

Select "Add" or "Edit" to enter information for a credentialing contact. The Credentialing Contact section asks for specific contact information for your dentists' credentialing contacts, e.g. name, address, phone number, and email.

CREDENTIALING CONTACT INFORMATION

5.3. Practice Location

Select "Add" or "Edit" to enter information for a practice location. The Practice Location section asks for detailed information regarding your dentists' practice location(s) including general contact information, hours, covering colleagues, practice limitations, accessibility and services provided. Tips:

- Throughout the screens, required fields that dentists must complete prior to their attestation are indicated with a red asterisk (*). To export data, all required fields do not need to be completed by a practice manager, but they will be required before the dentist can attest.
- 2. Use "Go to previous section" or "Save & Continue" to page forward or backward within sections.
- 3. It is important to click on the "Save" button or "Save & Continue" button to save your information. If you close the browser without clicking "Save" or "Save & Continue", you will lose your information.
- 4. Questions presented to you may vary based on the dentist's primary practice state.

The subsections are listed below and may vary based on the practice state.

- General Information
 - Physician Group/Practice Name
 - Please enter the Practice Name as it appears on a dentist's claim submission so it will match the
 name for the location that is known to participating organizations with whom the dentist contracts.
 In most cases, this will not be the practitioner's name. In some cases, this may be the name as it
 appears on the W9.
 - o Address
 - CAQH requests that you enter the appropriate address for the actual physical location of the practice. If you do not have a physical practice location, you may enter a P.O. Box; however, please note that health plans intend to use this information for their directories. If you would like to enter a P.O. Box for the billing address, please enter this information in the Billing Contact section at the bottom of this page.

 - Mid-Level Practitioners
 - Mid-level practitioners include: P.A. (physician's assistant); N.M.W (nurse midwife); N.P (nurse

practitioner); or R.N.F.A (registered nurse first assistant)

- o Office Manager or Business Staff Contact
- Billing Contact
- Payment and Remittance
- Practice Limitations
 - o Limitation
 - A limitation is any restriction the practice has set on the gender or age of the patient population.
 - o Gender Limitations
 - Age Limitations
 - Other Limitation
- Accessibility
 - o ADA Accessibility
 - The Americans with Disabilities Act (ADA) ensures access to the physical environment for people with disabilities. The ADA Standards establish design requirements for the construction and alteration of facilities subject to the law. These enforceable standards apply to places of public accommodation, commercial facilities, and state and local government facilities.
 - Handicapped Accessibility
 - Public Transportation Accessibility

 - Clinical Laboratory Improvement Amendments (CLIA) Diagnostic testing helps dentists screen for or monitor specific diseases or conditions. It also helps assess patient health to make clinical decisions for patient care. The Clinical Laboratory Improvement Amendments (CLIA) regulate laboratory testing and require clinical laboratories to be certificated by their state as well as the Center for Medicare and Medicaid Services (CMS) before they can accept human samples for diagnostic testing. Laboratories can obtain multiple types of CLIA certificates, based on the kinds of diagnostic tests they conduct.
 - Interpretation Services

5.4. Hospital Affiliation

Select "Add" or "Edit" to enter information for a hospital affiliation. The Hospital Affiliation section asks for detailed information regarding your dentists' hospital affiliations, including the hospital address, phone number, start and end dates, and department director information.

Tips:

- Throughout the screens, required fields that dentists must complete prior to their attestation are indicated with a red asterisk (*). To export data, all required fields do not need to be completed by a practice manager, but they will be required before the dentist can attest.
- 2. Use "Go to previous section" or "Save & Continue" to page forward or backward within sections.
- 3. It is important to click on the "Save" or "Save & Continue" button to save your information. If you close the browser without clicking "Save" or "Save & Continue", you will lose your information.

The Professional Liability Insurance section asks for detailed information regarding your providers' professional liability insurance. Select "Add" or "Edit" to enter information for your providers' professional liability insurance.

Tips:

- 1. Required fields that providers must complete prior to their attestation are indicated with a red asterisk (*). To export data, all required fields do not need to be completed by a practice manager, but they will be required before the provider can attest.
- 2. Questions presented to you may vary based on the provider's primary practice state.

PROFESSIONAL LIABILITY INSURANCE

| Please add a record for each professional liability insurance policy. A Professional Liability Insurance Face Sheet or |
|---|
| Certificate of Insurance will be required for each current policy that is entered. Each provider must maintain at least one |
| current policy record (with a Current Expiration Date in the future). |

- It is recommended to enter 10 years of insurance information to avoid additional follow-up from authorized
 organizations. Some states and credentialing organizations may have different requirements for this section. A Face
 Sheet or Certificate of Insurance is not required for expired policies.
- If a provider does not carry professional liability insurance, you will be required to submit a confirmation letter stating lack of coverage or providing further explanation.
- When a Current Expiration Date appears in red, that policy has expired. Click "Renew" to create an updated record with a new Current Effective Date and Current Expiration Date.
- Only Delete a policy record if it was entered in error or if expired more than 10 years ago.

| * Policy Number | |
|-----------------------------|-----------|
| Original Effective Date | |
| Select date | m |
| * Current Effective Date | |
| Select date | ** |
| * Current Expiration Date | |
| Select date | # |
| * Carrier/Self Insured Name | e |
| (Select) | |

The questions asked in this section include the following:

- Self-insured
 - Self-insured dentists are protected from professional liability claims by a program of self-insurance where expense payments and those to satisfy professional liability claims are made from a selfinsurance trust fund. In other words, self-insured dentists are not transferring financial risk for professional liability claims, and expenses to defend those claims, to an insurance carrier.
- Insurance name
 - If your dentist does not carry professional liability insurance, select 'Not Insured' in the 'Carrier/Self Insured Name'. The remaining fields do not need to be completed. In addition, the dentist will not be required to submit a professional liability insurance face sheet. However, the dentist may need to submit a letter of credit to the health plan in lieu of the required professional liability insurance face sheet. If you have questions regarding your state's regulations, please refer to your affiliated health plan for clarification.
 - If your dentist also has coverage under a Patient Compensation Fund, you still must complete all the questions in the 'Current Professional Liability Carrier' section as they relate to the dentist's primary malpractice carrier.
- Address
- Phone number
- Original effective date
- Current effective date
- Current expiration date
- Policy number
- Type of coverage
 - Note: Individual coverage is any malpractice liability insurance coverage that is not shared by other dentists, such as a group, IPA or hospital policy.
- Amount of coverage per occurrence
- Amount of coverage per aggregate

- You can select dentists from the search results and add them to your dentist list by selecting the check box next to a dentist and then selecting the "Add Provider(s)" button at the bottom of the results page.
- Alternatively, you can utilize the select all checkboxes in the header row to select all dentists at once.

7. Bulk Upload

This section provides details to users who have been granted access by CAQH to submit a file through the Bulk Upload functionality. The purpose of the Bulk Upload functionality is to assist large practices with the data entry process of the common data profile sections. The Bulk Upload functionality allows large practice groups to upload a data file for all dentists.

7.1. Creating a Bulk Upload File

The "Bulk Upload Submission Instructions" are located on the "Resources" page, accessible from the drop-down menu on the top right of the "Home" page. This document provides the file template and file specification requirements for the Bulk Upload file.

The submitted Bulk Upload file may contain new records, changed records or deleted records. CAQH Provider Data Portal will process each record, identifying any changes based on the "Action Flag".

Click on "Browse" to select the file you would like to upload. If desired, you can add a text description of your file. Select "Submit" to submit the file for processing. When a Bulk Upload file is submitted that does not meet basic validations, the system creates a bulk upload exceptions report. This report will include any dentist data that could not be processed because the file format did not meet the required file specifications.

If the file submitted does not have the correct headers per the specifications, the file will fail and an email will be sent. An exception report will not be generated.

You can submit multiple Bulk Upload files; however, the files will be processed in the order in which they were received.

Once the file is processed, the data will automatically be exported to the individual dentist data profiles. The dentist will be able review the data and choose to import the data if desired. The dentist will still need to log into ada.org/godigital to complete any remaining outstanding required fields and complete the attestation process.

8. Export

"Export" enables Practice Managers to send the data they have entered to their dentists so that they may import it into their individual profiles. From the Home Page, click "Export" on the top navigation bar to begin the process of exporting your data to dentist accounts.

You can search for a dentist by the following:

- CAQH Provider ID
- CAQH Provider Type
- NPI
- TIN
- First Name
- Last Name

Select from the drop-down list and enter additional search criteria in the text box then select "Search". You can also "Add" or "Clear Search" criteria using the relevant buttons.

To export the dentist information for a different state, select the "Yes" radio button, and then select the desired state from the drop-down menu. If a dentist has multiple practice states, you will have to export the data individually by each state.

8.2. Select Sanctions for Export

The second step to the export process is to select the sections for export.

8.2.1. Single Dentist Export

When exporting to a single dentist, additional data profile sections are available to you to export. If a single dentist with a single practice state is selected for export, the system will automatically load the applicable state's application form for data entry. If you indicated only one dentist for export, the following screen will display.

Select the sections for export by selecting the checkbox that corresponds to each section. Below are the nine application sections you can choose to export to a single dentist:

- 1. Personal Information
- 2. Professional IDs
- 3. Education
- 4. Professional Training
- 5. Specialties
- 6. Credentialing Contact
- 7. Practice Location.
- 8. Hospital Affiliations
- 9. Professional Liability Insurance (PLI)

You must also indicate if you would like to export saved sections from the Manage Practice section of the Practice Manager Module. This includes the following common data profile sections:

- Credentialing Contact
- Professional Liability Insurance (PLI)
- Practice Location
- Hospital Affiliation information

If you select "No", the above four sections (if you selected all four) will be presented to you for data entry once you select "Continue".

If you select "Yes", then you must select the Practice List that contains the dentist profile information you will be exporting.

Select "Continue".

8.2.2. Multiple Dentists Export

If you indicated multiple dentists for export, the following screen will display. When exporting to multiple dentists, you will only be able to select from the four common data profile sections for export (Credentialing Contact, Practice Location, Hospital Affiliations, and Professional Liability Insurance). The checkboxes for the sections available for single dentist exports will not be active. Select the sections for export by selecting the checkbox that corresponds to each section.

You must also indicate if you would like to export saved sections from the Manage Practice section of the Practice Manager Module.

If you select "No", the above four sections (if you selected all four) will be presented to you for data entry once you select "Continue".

If you select "Yes", then you must select the Practice List that contains the dentist profile information you will be exporting.

Select "Continue".

8.3. Using Saved Sections

If you choose to use saved common data, the selected common sections will be populated using the saved common sections stored in Manage Practice. On the page below, you must drag and drop the common dentist information by section over to export. You can drag and drop as many sections as displayed and also have the option to "Undo" your selection. Once finished, select "Complete Import & Save".

8.4. Review Export Information

During this export stage, you can input and/or review information within the sections you selected for export.

Note: If you selected a single dentist to export and selected to export any of the sections applicable only to the single dentist export, i.e., Personal Information, Professional IDs, Education, Professional Training, or Specialty, these sections will be presented to you at this time to complete. Because this data is only applicable to an individual dentist, the data you enter in these sections will not be saved for future use in your Practice Manager account.

Tips:

- Throughout the screens, required fields that dentists must complete prior to their attestation are indicated with a red asterisk (*). To export data, all required fields do not need to be completed by a practice manager, but they will be required before the dentist can attest.
- 2. Use "Go to previous section" or "Save & Continue" to page forward or backward within sections.
- 3. It is important to click on the "Save" or "Save & Continue" button to save your information. If you close the browser without clicking "Save" or "Save & Continue", you will lose your information.
- 4. Questions presented to you may vary based on the dentist's primary practice state.

8.5. Export Summary Page

This page shows you which dentists were selected, as shown below, in addition to the sections you previously chose to save. Once you have verified the following information, select "Export".

- After the data is exported, you will not be able to see any changes to the data that the dentist may make.
- You are able to see a record of the export in the "Activity Log" and the "Export History Log" on the Home page.
- NOTE: During future exports, the only dentist profile information that is saved in the Practice Manager Module is information that is stored in the four common sections (Credentialing Contact, Practice Location, Hospital Affiliation, and Professional Liability Insurance).
