Oral Evaluation by Geography, 2018

Topical Fluoride at Least 2/Year by Age, 2018

1 in 3 children had an oral evaluation.

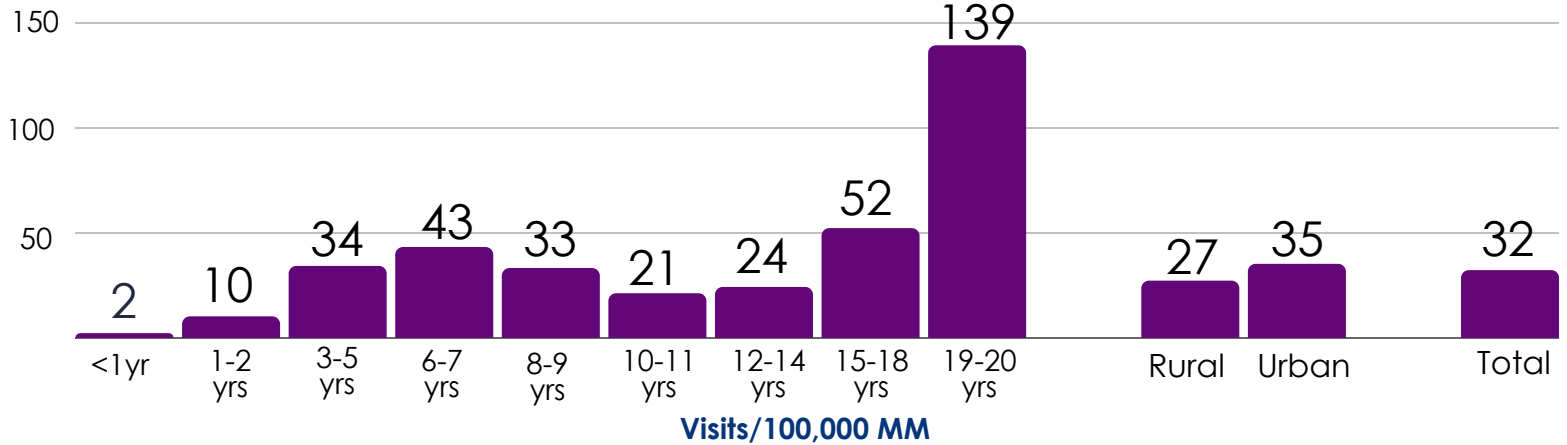

Fewer than 20% of children had at least 2 topical fluoride applications.

Children aged 19-20 years had more than 4 times as many ED visits as the program average.

Caries-Related ED Visits by Age and Geography, 2018
