^{*}Based on analysis of 29 states. See <u>DQA Oral Health Quality Reports</u> for more info.

Oral Evaluation by Geography, 2018

Topical Fluoride at Least 2/Year by Age, 2018

53% of children had an oral evaluation.

 in 3 children 6-11 years and
in 20 children 19-20 years
received at least 2 topical fluoride applications.

Children aged 19-20 years had 3 times as many ED visits as the program average.

Caries-Related ED Visits by Age and Geography, 2018
