National Sample, 2018*	52.1%	47.2%	3.7%	21.2%	26.8

<sup>\*</sup>Based on analysis of 29 states. See <u>DQA Oral Health Quality Reports</u> for more info.

#### Oral Evaluation by Geography, 2018

# Topical Fluoride at Least 2/Year by Age, 2018

49% of children living in rural areas had an oral evaluation.

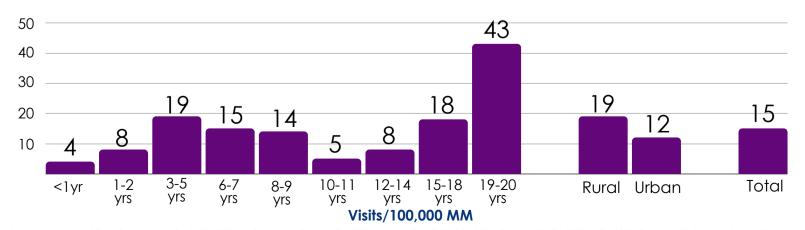

in 3 children 6-11 years and
in 10 children 19-20 years
received at least 2 topical fluoride applications.

Children aged 19-20 years had almost 3 times as many ED visits as the program average.

### Caries-Related ED Visits by Age and Geography, 2018
