EXECUTIVE SUMMARY

United Way of Connecticut (UWC) completed a telephone mystery shopper survey on behalf of Connecticut Dental Health Partnership (CT DHP) to assess the availability of routine and specialized dental care for HUSKY recipients.

PROJECT OVERVIEW

UWC contact specialists used a provider directory furnished by CT DHP to call 808 in-network General, Pediatric, Endodontist, Oral Surgery, and Orthodontist dental practices to inquire about the next available appointment for an eligible HUSKY recipient. When an appointment was offered, the contact specialists recorded the appointment date and said that they would need to call back to confirm – no appointments were actually booked.

The 808 offices in the CT DHP directory included the following breakdown of practice types:

- 667 General & Pediatric practices
- 13 Endodontist practices
- 65 Oral Surgery practices
- 63 Orthodontist practices

HIGHLIGHTS

- 781 of the 808 offices in the directory were successfully contacted, representing a 97% reach rate.
- Appointments were offered by 715 practices, representing 92% of all the practices reached.
- With the exception of Endodontists, more than 90% of all other practice types reached offered an appointment to the contact specialist – 97% of Orthodontists reached (60 appointments), 92% of Oral Surgeons reached (54 appointments), 91% of General & Pediatric practices reached (591 appointments), and 83% of Endodontists (10 appointments) reached.
- More than 3-in-4 of the practices that offered an appointment had one available in less than 2 weeks (76%), with a majority offered in less than 1 week (59%) and 11% offered for the same day.
- The mean wait time for an appointment overall is 9.9 days, with a median wait of 5 days.
- General & Pediatric practices were the most likely to offer an appointment in less than 2 weeks (79%), and have the shortest mean wait time (9.1 days) of all the practices that offered appointments. Wait times for appointments offered by Endodontists (11.7 days) and Oral Surgery practices (13.7 days) averaged less than 2 weeks, with only Orthodontist practices (14.7 days) having an average wait time of 2 weeks or more.
- Altogether, 49 of the practices reached did not offer appointments because they were not accepting HUSKY, not accepting any new patients, or were not accepting new HUSKY patients, and the remaining 18 practices did not offer appointments for some other reason (doctor retiring, quota met, or other special criteria).

HUSKY DENTAL MYSTERY SHOPPER REPORT

In July and August 2014, United Way of Connecticut (UWC) conducted a telephone mystery shopper survey for Connecticut Dental Health Partnership (CT DHP) and compiled the results of the telephone call outcomes. CT DHP provided UWC with lists of dental practitioners to call, a call script, and a list of current HUSKY clientele to be used during the survey. The call lists included General dentists, Pediatric dentists, Endodontists, Oral Surgeons and Orthodontists.

Trained 2-1-1 contact specialists attempted to reach the 808 in-network dental practices provided by CT DHP with the intent of identifying the next available appointment for various types of care for an eligible HUSKY recipient:

- **General & Pediatric** dentist offices were contacted to request an appointment for a cleaning
- **Endodontist** offices were contacted to inquire about a root canal for their child that was recommended by their general dentist
- **Oral Surgery** offices were contacted to inquire about a tooth extraction for their child that was recommended by their general dentist
- **Orthodontist** offices were contacted to inquire about an appointment for consultation with an orthodontist for their child, recommended by their general dentist

The contact specialists requested the earliest possible appointment, recorded the date, and said they would call back after checking with other offices or confirming their availability (no appointments were actually booked). If an appointment was offered, call specialists recorded the date given and the number of days until the appointment. If no appointment was offered, call specialists recorded the reasons given for why an appointment could not be made. When contacting offices that are known to not accept new patients, information from existing patients was used in order to be considered for an appointment.

For offices that were not reached on a first attempt, a minimum of 2 additional attempts were made to reach each office at various different days and times. Twenty-seven offices could not be reached after multiple attempts.

CONTACT RESULTS

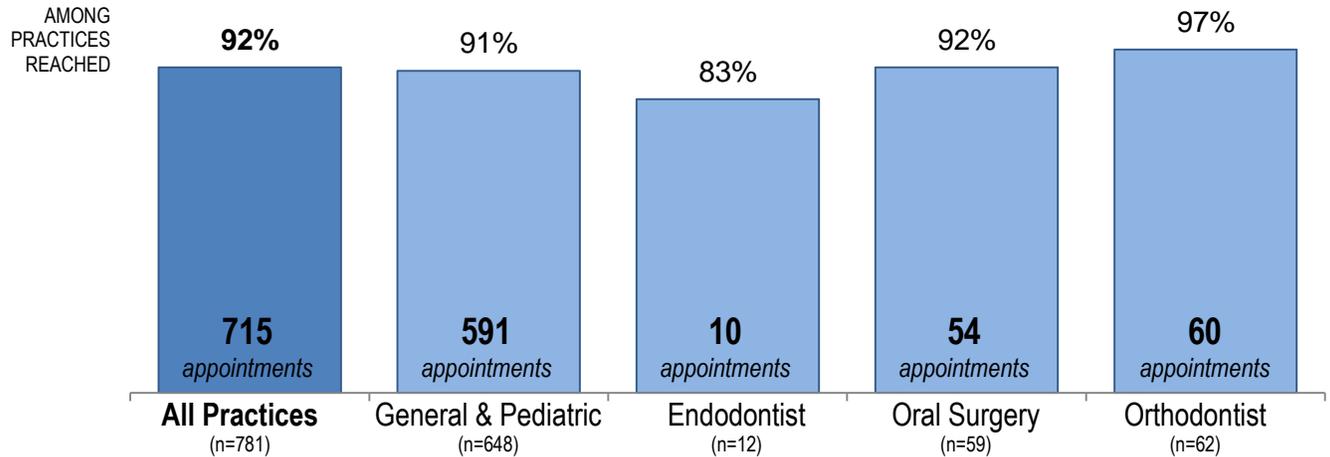

Altogether, attempts were made to contact 808 offices of dental providers, including general, pediatric, endodontists, orthodontists, and oral surgeons. Table 1 includes the number of each office type reached using the telephone list provided by CT DHP. 97% of all offices on the list were reached by the contact specialists, with only a small number of each office type being unreachable on any attempt due to a non-working number or unanswered phone. A directory of the practices not reached can be found in Appendix H.

TABLE 1. Results of Contacting Dental Offices			
Practice Type	Practices Attempted	Practices Reached	Practices Not Reached
General & Pediatric	667	648 (97%)	19 (3%)
Endodontist	13	12 (92%)	1 (8%)
Oral Surgery	65	59 (91%)	6 (9%)
Orthodontist	63	62 (98%)	1 (2%)
ALL PRACTICES	808	781 (97%)	27 (3%)

APPOINTMENTS OFFERED

Overall, appointments were offered by 92% of the practices that our contact specialists were able to reach. Generally, more than 90% of the practices reached offered an appointment to our callers (Figure 1). Although only 83% of the Endodontists reached offered an appointment, this represents 10 practices out of the 12 that were reached and is a relatively high success rate given the small number of offices.

FIGURE 1. Percent of Practices Offering an Appointment

Appointments were not offered by a total of 66 practices reached (Table 2). The primary reasons given by practices for not offering an appointment were that the office does not accept HUSKY (3.3%) or does not accept new HUSKY patients (2.2%).

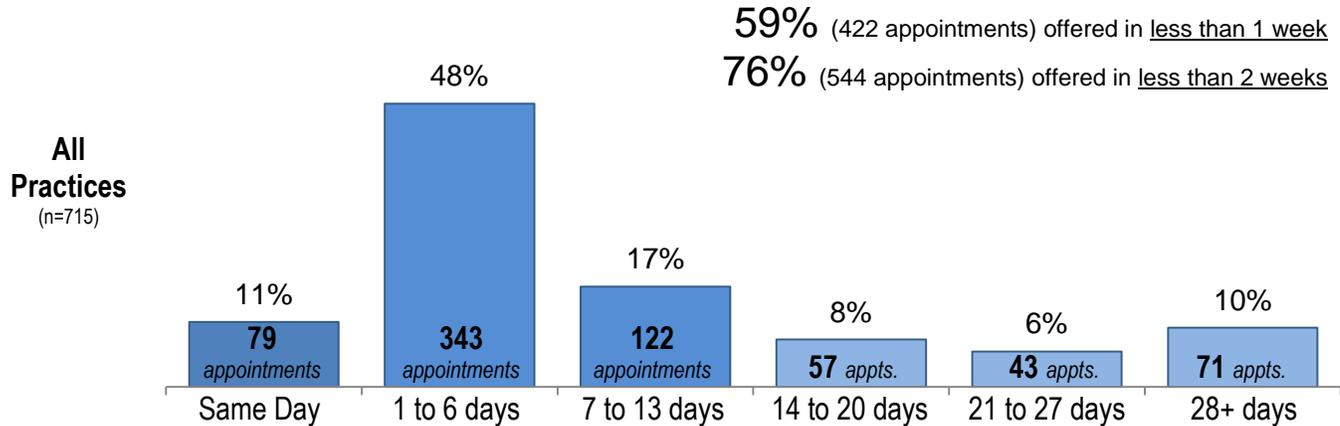

TABLE 2. Reasons Given for Why No Appointment Was Offered	
Reason Given	Among Practices Reached (n=781)
Not accepting HUSKY	26 (3.3%)
Not accepting new HUSKY patients	17 (2.2%)
Not accepting new patients	6 (0.8%)
Some other reason*	17 (2.2%)

*Doctor retiring, residency requirements, special HUSKY criteria, HUSKY quota met

APPOINTMENT TIMING

When a dental practice was reached, the contact specialist followed the script to request the next available appointment. The appointment date was recorded and the number of days until the appointment (including weekend days) was calculated. More than half of all practices reached offered an appointment within one week (59%) and three-quarters of all offices reached offered an appointment within two weeks (Figure 2).

FIGURE 2. Length of Time to Appointment Offered

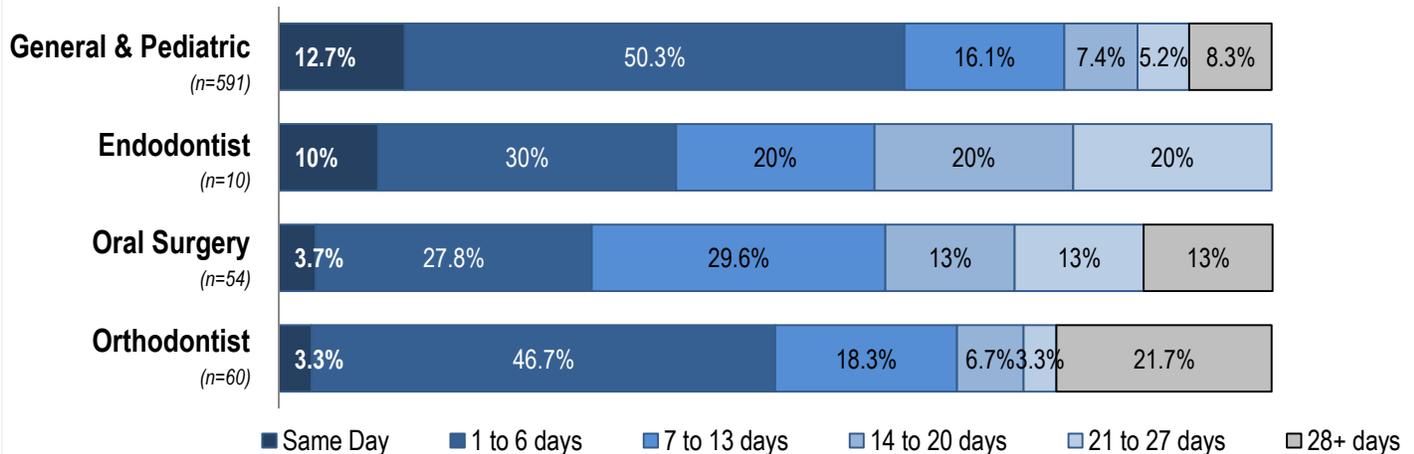

The overall mean wait time for an appointment was 9.9 days and the overall median wait time was 5 days (Table 3). Practices of all types offered at least one same-day appointment to our contact specialists, resulting in a minimum wait of 0 days across all practices that offered an appointment. Although General & Pediatric practices had the longest maximum wait time with 162 days, only 7 practices offered appointments more than 60 days out. Orthodontists (73 days), Oral Surgeons (40 days) and Endodontists (22 days) all have lower maximum wait times.

<u>Practice Type</u>	<u>Mean</u>	<u>Median</u>	<u>Maximum</u>	<u>Minimum</u>
General & Pediatric	9.1	4	162	0
Endodontist	11.1	12	22	0
Oral Surgery	13.7	11	40	0
Orthodontist	14.7	7	73	0
ALL PRACTICES	9.9	5	162	0

(n=715)

Four out of five General & Pediatric dentists (79%) that offered appointments had openings available in less than 2 weeks, which is highest of all the practice types (Figure 3). Orthodontists (68.3%) were next highest, with approximately two-thirds offering appointments in less than 2 weeks.

FIGURE 3. Length of Time to Appointment by Practice Type

TREND DATA FOR 2010 TO 2014

United Way of Connecticut conducted similar mystery shopper projects for the CT Dental Health Partnership in 2010 and 2012, the summary data for which is presented below in order to facilitate comparisons between years (Figure 4).

FIGURE 4. Percent of Practices Offering an Appointment and Average Wait Time (2010 – 2014)

Practice Type	Percent Offering Appointment		Avg. Wait	Change
	Year	Percent	(days)	(from prior year)
General & Pediatric (n=396), (n=552), (n=648)	2010*	93%	11.2	-
	2012	91%	6.8	▼ 4.4 days
	2014	91%	9.1	▲ 2.3 days
Endodontist (n=15), (n=12)	*		*	*
	2012	87%	10.3	-
	2014	83%	11.1	▲ 0.8 days
Oral Surgery (n=54), (n=59)	*		*	*
	2012	94%	11.8	-
	2014	92%	13.7	▲ 1.9 days
Orthodontist (n=44), (n=62)	*		*	*
	2012	80%	17.8	-
	2014	97%	14.7	▼ 3.1 days

*Data only collected for General & Pediatric practices in 2010

APPENDIX A – CALL SCRIPTS AND POINTERS

Contact specialists conducting the mystery shopper survey used the following call scripts when contacting each practice type to request an appointment. A separate script was provided for general and pediatric practices that do not accept new patients, whereas calls to Endodontist, Oral Surgery, and Orthodontist practices did not require multiple scripts. In order to maintain consistency, the list of pointers was provided to the contact specialists to guide them in responding to the questions frequently asked by schedulers at the various practices.

CALL SCRIPTS

<p><u>General and Pediatric</u></p>	<p>Accepting New Patients: Hi, my name is ____ and I am calling to see how quickly I can get my child into your office for a cleaning. My child has HUSKY insurance. I called the client services for the number of a few offices and I am curious to see how quickly I can get an appointment?</p> <p>Not Accepting New Patients: Hi, my name is ____ and I am calling to see how quickly I can get my child into your office for a cleaning. My child has HUSKY insurance and was last seen in your office a while ago. I don't remember exactly when it was.</p>
<p><u>Endodontist</u></p>	<p>Hi, my name is ____ and I brought my child to our general dentists this morning. He told me I have to make an appointment with an endodontist for my child. He/She needs a root canal on a back tooth. When is the next appointment you have available?</p>
<p><u>Oral Surgery</u></p>	<p>Hi, my name is ____ and I recently brought my child to our general dentists. He suggested I make an appointment with an orthodontist for my child. When is the next appointment you have available?</p>
<p><u>Orthodontist</u></p>	<p>Hi, my name is ____ and I brought my child to our general dentists this morning. He told me I have to make an appointment with an oral surgeon for my child. He/She needs to have a tooth extracted. When is the next appointment you have available?</p>

POINTERS

- When making an appointment with a General or Pediatric dentist, if asked when the last time your child was seen by a dentist, respond: "It was about a year ago."
- When making an appointment with a General or Pediatric dentist, if you are asked which dentist your child saw last, respond: "It was at school, I'm really not sure."
- If asked for your or your child's social security number, respond: "I am at work around other people and not comfortable giving it out right now. I can bring it with me to the appointment."
- When making an appointment with an orthodontist, if asked why the child needs orthodontia work, respond: "I'm not exactly sure – I just know that the dentist felt that my child may need braces. I can get more details later from our dentist, but could you give me at least give me an idea of your available appointments?"
- When making an appointment with an oral surgeon, if asked why the child needs a tooth extracted, respond: "I'm not exactly sure – I think it is a space issue. I can get more details from our dentist later, but could you give me an idea of your available appointments?"
- When making an appointment with an endodontist, if asked what tooth needs a root canal, respond: "I'm not exactly sure – I think it is a back tooth. I will have to get those details for you from our family dentist later."

APPENDIX B – DATA COLLECTION QUESTIONS

The following questions were built into a data collection form used by the contact specialists in the mystery shopper survey project. All of the dental practice data was pre-loaded into the data collection form. Contact specialists entered a record ID number from their call list, which displayed the relevant dental practice data on the screen to confirm when requesting the appointment.

Please enter the Provider ID: _____

Please use the information below to contact the dentist office and request an appointment, following the script shown below. *(the number of attempts is automatically updated at this screen, each time it is accessed)*

Dentist First Name:	_____	Dentist Last Name:	_____
Practice:	_____	Address:	_____
City/Town:	_____	Phone Number:	_____
Practice Type:	_____		

Were you able to make the appointment?

- Yes
- No *(added to callback list after entering reason below)*
- Bad Number
- No Answer *(automatically added to callback list)*

IF NO: What reason(s) were given for why an appointment could not be made (please mark all that apply below):

- Not accepting HUSKY
- Not accepting new HUSKY patients
- Not accepting adults with HUSKY
- Not accepting new patients
- Doctor is retiring
- Office is unsure whether it had reached capacity
- Office requires patients to be members of a clinic
- Office requires prior notification that the appointment is needed before scheduling
- Office did not have the child listed as existing patient
- Office only accepts patients from a certain geographic area
- Some other reason

IF YES: What date is the appointment scheduled for?

(number of days to appointment was automatically calculated by the data collection form, including weekend days)
