Mean 17.5

About 1 in 6 dentists reported that since the beginning of the year, they have dropped out of some dental insurance networks. These insurance networks covered 17.5% of their patient base on average.
Key Takeaways

- **Practice Schedules**: Dental practice schedules remain steady at the start of 2023, with schedules 85% full on average in February. For several months, we have been in a holding pattern. For months, dental practices have cited patient no-shows and cancellations as the top reason why their practice schedules are not full.

- **Recruitment Needs**: Recruitment needs for dental hygienists and assistants are still down from a high point in early 2022. But by no means is the shortage over. Dentists who are actively recruiting dental practice personnel continue to say recruitment is extremely challenging.

- **Dental Insurance Networks**: Some dentists have reported that they have dropped out of some dental insurance networks since January 2023, affecting of 17.5% of their patient base on average.
