**ABOUT THIS COURSE** | CONTENT | ADDITIONAL INFORMATION

TYKE is a course designed to increase dentists' confidence to see babies and young children and inspire a commitment to decreasing the prevalence of dental caries in California children. Specifically, this course aims to encourage dental teams to use caries risk assessment, disease prevention, and early interventions to reduce tooth decay among children ages birth to 5 years.

**Learning Objectives**

1. Perform caries risk assessments (CRA) to individualize interventions and recall.
