CONSIDERATION OF MATTERS RELATED TO ORAL AND MAXILLOFACIAL PATHOLOGY EDUCATION

Informational Report of Frequency of Citings of Accreditation Standards for Advanced Dental Education Programs in Oral and Maxillofacial Pathology (p. 800): The Review Committee on Oral and Maxillofacial Pathology Education (OMP RC) considered the frequency of citings report, which presented the number of times areas of non-compliance were cited by visiting committees conducting the 13 oral and maxillofacial pathology site visits from January 2014 through October 2019. The data indicated one (1) area of non-compliance was cited under Standard 4-5.3 related to trainees actively participating in the gross and microscopic examination of surgical and necropsy specimens. Due to the limited number of citings, a trend in the data cannot be identified. The Commission will continue to receive reports annually summarizing the updated data on the frequency of citings of individual Standards.

Recommendation: This report is informational in nature and no action is required.
