Ranking Member

Dear Chairman Goodlatte and Ranking Member Conyers:

As the nation's oldest and largest dental professional organization, representing over 161,000 members, the American Dental Association (ADA) strongly supports H.R. 372, "The Competitive Health Insurance Reform Act." The ADA requests the inclusion of the provisions of H.R. 372 in legislation affecting the Affordable Care Act considered by Congress this year.

H.R. 372 would authorize the Federal Trade Commission and the Justice Department to enforce the federal antitrust laws against health insurance companies engaged in anticompetitive conduct. It would not interfere with the states' ability to maintain and enforce their own insurance regulations, antitrust statutes, and consumer protection laws. Because states vary in their enforcement efforts, the impact of repeal on health insurance companies would differ from state to state. This is no different from the situation faced by other businesses.

The bill is narrowly drawn to apply only to the business of health insurance, including dental insurance, and would not affect the business of life insurance, property or casualty insurance, and many similar insurance areas.

Passage of H. R. 372 would help interject more competition into the insurance marketplace by authorizing greater federal antitrust enforcement in instances where state regulators fail to act. When competition is not robust, consumers are more likely to face higher prices and less likely to benefit from innovation and variety in the marketplace.

Please contact Ms. Mindi Walker at (202) 898-2404 or walkerm@ada.org with any questions.

Sincerely,

/s/

Gary Roberts, D.D.S.
