

Report of the ADA-Recognized Dental Specialty Certifying Boards

April 2013

Approved by the Council on Dental Education and Licensure April 25, 2013

ADA American
Dental
Association®
America's leading
advocate for oral health

INTRODUCTION

The Report of the ADA-Recognized Dental Specialty Certifying Boards contains information collected from the dental specialty certifying boards recognized by the American Dental Association's Council on Dental Education and Licensure. This report contains data current as of December 31, 2012, is updated annually, and summarizes the following information about each of the nine recognized dental specialty certifying boards:

- | | |
|---|---------|
| • Certification and Examination Data | Page 3 |
| • Board Executive Directors/Secretaries | Page 4 |
| • Eligibility Requirements | Page 5 |
| • Examination Procedures | Page 7 |
| • Application and Registration Procedures | Page 8 |
| • Re-Examination Policies | Page 9 |
| • Recertification Policies | Page 11 |

THE ADA RECOGNIZED DENTAL SPECIALTY CERTIFYING BOARDS AND KEY TO ABBREVIATIONS USED IN THE REPORT

- American Board of Dental Public Health (DPH)
- American Board of Endodontics (Endo)
- American Board of Oral and Maxillofacial Pathology (OMP)
- American Board of Oral and Maxillofacial Radiology (OMR)
- American Board of Oral and Maxillofacial Surgery (OMS)
- The American Board of Orthodontics (Orth)
- American Board of Pediatric Dentistry (PD)
- American Board of Periodontology (Perio)
- American Board of Prosthodontics (Pros)

CERTIFICATION AND EXAMINATION SUMMARY AND HISTORICAL DATA

	DPH	Endo	OMP	OMR	OMS	Orth	PD	Perio	Pros
Founding Date	1950	1956	1948	1979	1946	1929	1940	1940	1946
Date ADA Recognition	1951	1964	1950	2000	1948	1950	1948	1948	1948
Number Certified <i>Without</i> Examination From Founding Date Through 12/31/12	12	34	7	74	15	98	7	0	69

Number Deceased, Dropped or Placed on Inactive Roll	1	31	5	0	90	1,335	22	35	33
Number of Applications Received	17**	232	12	20 (Part 1) 8 (Part 2)	747	365	333	380	298
Number of Acceptable Applications Received	16	232	12	19 (Part 1) 7 (Part 2)	730***	365	333	377	298
Number of Unacceptable Applications Received	1	0	0	2	17	0	0	3	0
Number <u>Recertified</u> in 2012	3	12	4	6	215	6	57*	0	18

*57 Diplomates were recertified by examination; 2,530 Diplomates completed annual Renewal of Certification Process (as described on page 13) requirements.

** There were 16 written only exam applications and six total exam applications.

***The differences in the # of applications (acceptable and unacceptable) are a function of the credentialing process associated with the application process. This process includes a series of requirements that extends beyond the application itself. Discrepancies indicate that not all requirements were completed but do not mean the application itself was unacceptable.

- (1) Students enrolled in an ADA-accredited endodontic program can take the written examination in the same year as their graduation.
- (2) Candidates may register for the Qualifying Examination in their final year of training if they expect to successfully complete their training and be awarded their certificate/diploma by November 1 following the examination date.
- (3) Candidates may take written exam (Part I) after successful completion of their advanced education program.
- (4) Students in their final year of training may elect to take the Part I written examination and one additional part (total 2 parts) in February of their final year.
- (5) Candidates may take the written examination 1) after successful completion of their advanced education program, or 2) candidates who are completing their educational requirements at the time of application, will require a letter of support from the residency or program director verifying the date when residency requirements are expected to be completed before the written examination is scheduled.
- (6) Introduction of banked cases for ICE examinees.
- (7) Candidates may take Part 1 examination after 24 months of advanced education program. Candidates may take Part 2 exam after one year of successful completion of Part 1 exam.

* Advanced Education refers to postdoctoral education programs accredited by the ADA Commission on Dental Accreditation (ADA CODA).

Certification Pathways for Graduates of Non-ADA CODA Accredited Advanced Education Programs

Dental Public Health: Dentists who have completed training of two or more years of advanced education in dental public health from an institution outside the United States followed by satisfactory completion of a residency program in dental public health accredited by the Commission on Dental Accreditation are eligible for certification.

Endodontics: Graduates of an Advanced Endodontics Program that has not been accredited by the Commission on Dental Accreditation may apply for certification by the American Board of Endodontics under the following conditions: 1) The candidate must submit satisfactory evidence of completion of an Advanced Endodontic Program that is equivalent to a program accredited by the Commission on Dental Accreditation (CODA). 2) The candidate must have a license to practice dentistry in a state or a teaching institution in the United States. 3) In addition, the candidate must have either a) spent at least one year as an advanced standing resident in an Advanced Endodontics Program accredited by CODA or b) spent two years as a full-time Endodontics faculty member in a dental school accredited by CODA. In either of these situations, two letters of support must be submitted on behalf of the candidate from 1) a Department Chair of Endodontics or an Endodontic Postgraduate Program Director who is a Diplomate of the ABE (if the candidate is a Department Chair or Program Director, then the letter of recommendation may be from a Chair or Program Director at another dental school), and 2) the Dean of the dental school in which the candidate has been employed or has been an advanced standing resident

Oral and Maxillofacial Pathology: Applicants who have completed a full time course of study in oral and maxillofacial pathology of no less than three years in a non-CODA accredited program may become eligible for certification upon completion of an additional year in a CODA-accredited advanced training program in oral and maxillofacial pathology. The Board of Directors must unanimously approve such applications to be admitted for the certification examination.

Oral and Maxillofacial Surgery: Applicants for certification by the ABOMS must be graduates of a U.S. or Canadian dental program recognized by the Commission on Dental Accreditation (CODA) or from a foreign dental school that provides equivalent educational backgrounds. Applicants must have completed advanced educational oral and maxillofacial surgery (OMS) programs accredited by CODA. Applicants trained in programs not accredited by CODA must provide verification that their OMS training was of equivalent educational backgrounds. In addition, these applicants must complete 1) at least 12 months of OMS training at the senior resident level in an accredited program, which is verified by the program director. The program director must also verify that all of the program's educational requirements have been met by said applicant to the satisfaction of the ABOMS; or 2) an accredited fellowship that is a minimum of 12 months duration which is verified by the program director, or 3) 12 consecutive months as a full-time faculty member in an accredited OMS training program during the past 2 years which is verified by the department chairman in OMS.

Pediatric Dentistry: 1. Completion of advanced education in Pediatric Dentistry which has been approved by the American Dental Association/Commission on Dental Accreditation or the Commission of Dental Accreditation of Canada (CDAC). 2. Internationally trained Pediatric Dentist (from a non-accredited ADA/CDA or CDAC specialty program) should contact a Program Director of an ADA/CDA or CDAC approved training program in Pediatric Dentistry and request advanced placement or credit by examination leading to certification of completion of the program. 3. Internationally trained Pediatric Dentist (from a non-accredited ADA.CDA or CDAC specialty programs) who has been a full-time faculty member in an accredited ADA/CODA or CDAC pediatric dentistry training program for 12 consecutive months during the past 2 years with verification by the Department Chair in Pediatric Dentistry.

NOTE: For items 1,2, and 3 the pediatric dentist MUST provide evidence of an active license (with expiration date) to engage in the practice of dentistry and a copy of the certification of completion of the training program – both must be notarized as official duplications. These documents must be included with the application of Board Candidacy and a completed Credentialing Survey.

EXAMINATION PROCEDURES

RE-EXAMINATION POLICIES

DENTAL PUBLIC HEALTH

Candidates who fail the examination will be accepted for re-examination. Candidates who fail the re-examination will be required to submit evidence of further formal training or supervised field experience before being accepted for an additional re-examination. Candidates who apply for the written exam only may retake the written examination for a total of three times.

ENDODONTICS

Candidates who fail one component of the examination will be accepted for re-examination in that component if the period of board eligibility for that component has not expired. Failure to pass a re-examination in a single component results in termination of the candidate's board eligibility. Candidates may re-establish Board Eligibility on a two-time basis.

ORAL AND MAXILLOFACIAL PATHOLOGY

Candidates who fail the examination may retake it each year within the five-(5) year period dating from the time of initial application.

ORAL AND MAXILLOFACIAL RADIOLOGY

Candidates who fail to successfully complete Part 1 may be permitted, on written request to the Board and payment of a re-examination fee, to repeat Part 1. Candidates who fail to successfully complete Part 2 may be permitted, on written request to the Board and payment of a re-examination fee, to repeat Part 2 for a maximum of three (3) consecutive years. A candidate failing Part 1 or 2 who wishes to repeat Part 1 or Part 2 must submit a written, signed request to the Board, through the Secretary/Treasurer by July 15. A re-examination fee of \$300 USD for Part 1 and \$400 USD for Part 2 for permission to repeat these parts must accompany the request. A candidate who fails Part 1 or Part 2 three (3) times and who wishes to challenge the examination again must resubmit an application as a new Part 1 applicant. Eligibility for re-examination will be at the discretion of the Directors who will review evidence of additional study and experience to support candidacy for re-examination.

ORAL AND MAXILLOFACIAL SURGERY

Qualifying Examination

A candidate who fails the Qualifying Examination may retake the examination. A non-refundable re-examination fee will be required and must be submitted prior to August 1 of the year preceding the examination.

A candidate who does not pass the Qualifying Examination in the allotted time must reapply. A new application form and appropriate fees are required. The applicant who reapplies must show evidence of further training and/or educational experiences which shall be evaluated by the Board.

Oral Certifying Examination

A candidate who fails the Oral Certifying Examination may repeat the examination. A non-refundable re-examination fee will be required.

RE-EXAMINATION POLICIES (cont)

A candidate who does not pass the Oral Certifying Examination in the time allotted must reapply to repeat the certification process in its entirety. The applicant who reapplies must show evidence of further training and/or educational experiences. These documents are reviewed by the Board to determine the applicant's eligibility for further examination. Examination fees are required in the reapplication process.

ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS Examinees who do not successfully complete the Written Examination in five years from date of application must re-apply. Examinees may repeat the examination as many times as the examination is available in the five-year established time frame. After successful completion of the written examination, there is no time-limit or expiration date for completing the clinical examination.

Examinees taking their first Clinical Examination, who do not successfully complete all required case criteria, are given a time limit and two attempts to resubmit cases for incomplete criteria. If unsuccessful, candidates are required to register for a new examination and present entirely new cases.

PEDIATRIC DENTISTRY Qualifying Exam (QE): The Candidate who fails the QE can retake the examination annually within the fourth year of their eligibility period. The Candidate must be successful with the QE prior to sitting for the OCE.

Oral Clinical Exam (OCE): The Candidate who fails the OCE can retake the examination annually within their five- or eight-year eligibility period.

PERIODONTICS Qualifying Examination: Candidates who fail the Qualifying Examination may apply and take the examination again.

Oral Examination: Candidates who fail the oral examination in the last year of eligibility. (2 years without extension: 3 years if extension is granted), will be required to restart the Certification Examination process by retaking and successfully completing the ABP Qualifying Examination.

PROSTHODONTICS Should candidates fail all or part of the examination, they may apply at any time for re-examination and must pay the appropriate fee for each part. The candidate should remember that the entire examination process must be completed within six consecutive years from the date board eligibility was initially approved. If the candidate fails any part three times, board eligibility is forever forfeited and may not be re-established, except under unusual extenuating circumstances which the Board may determine.

RECERTIFICATION POLICIES

DENTAL PUBLIC HEALTH

Beginning on January 1, 2000, recertification by the Board will require completion of an average of ten (10) hours annually of continuing education from an approved CERP or a public health organization. Scholarly activity, such as manuscripts published in peer-reviewed journals, presentations at scientific meetings and providing continuing education courses and lectures will be counted toward these ten (10) hours.

In addition, the Board will initiate a voluntary recertification program for all diplomates certified prior to January 1, 2000. These diplomates will be requested to seek voluntary recertification within ten (10) years beginning in 2000 (by 2010). Upon review of the diplomates' recertification credentials, the American Board of Dental Public Health will issue a supplemental certificate that will remain valid for ten (10) years.

ENDODONTICS

Applicants making Preliminary Application on or after January 1, 1997 will be required to be recertified every ten years from the date they are declared Diplomates by the ABE. The purpose of recertification is to ensure that Diplomates are current in the science and clinical practice of the specialty of endodontics.

During the 10-year recertification period, 25 credits or 150 continuing education hours must be earned by the Diplomates to meet the re-certification criteria. A maximum of 8.5 credits or 50 continuing education hours are allowed/counted annually.

Diplomates who submitted Preliminary Applications prior to January 1, 1997, and complete the examination process without having to make a second Preliminary Application after January 1, 1997, are not subject to recertification. However, the Directors of the American Board of Endodontics encourage all Diplomates to seek and maintain the highest level of knowledge of technical skills in the specialty of endodontics.

ORAL AND MAXILLOFACIAL PATHOLOGY

It is the position of the ABOMP that oral pathology-related continuing education and practice experience are required to maintain knowledge after successful completion of the certification process. The Certification Maintenance (CM) program is directed primarily toward those oral and maxillofacial pathologists with time-limited certificates (certificate received in 2004 or after). The process will be open, however, to all certified diplomates. A diplomate who holds a non-time-limited certificate will not put that certificate in jeopardy by participating in the CM program. A voluntary Continued Competency Assurance Program is also still available for diplomates without time-limited certificates. Certification Maintenance will be based on three components.

- 1. Evidence of professional standing.**
- 2. Evidence of commitment to lifelong learning and involvement in periodic self-assessment (organized continuing education (CE) and self-learning).**
- 3. Evidence of cognitive expertise (certification maintenance examination).**

If a diplomate is successful in the CM process, a new certificate will be issued. A diplomate will be allowed to sit for the certification maintenance examination in years 7-10 of his/her 10-year certification period. Regardless of the date at which the CM process is completed, the anniversary dates for recertification will be derived from the initial certification date. If a diplomate does not successfully complete the requirements of the CM process, including passing the certification maintenance examination, the diplomate's Board certification will expire 10 years after issuance and he/she will no longer be listed as a diplomate.

RECERTIFICATION POLICIES (cont)

Application and Fee: The fee for the certification maintenance examination is \$500. The application form and more related information concerning CM are available at www.abomp.org by clicking on the "Certification Maintenance" link. The application and fee must be received by Feb 1 of the year a diplomate wishes to take the certification maintenance exam.

ORAL AND MAXILLOFACIAL RADIOLOGY

The American Board of Oral and Maxillofacial Radiology (ABOMR) strongly values continuing education and expresses so in its mission statement. Compliance with continuing education requirements and other professional activities directed toward maintaining and increasing knowledge, skills and competence in OMR shall be required of all active Diplomates. **Attainment of at least 50 points over a three year period is required for recertification.** Diplomates will be responsible for maintaining their own records and documentation. The ABOMR Recertification Committee has been instructed to audit 5% of active Diplomates annually. These Diplomates will be required to submit documented proof of CEU attainment to the Committee. Diplomates who fail to meet the requirements will be placed on a one-year probation period, and appeals can be made during that time. Failure to comply with the requirements at the end of the probation period may result in revocation of certification as a Diplomate. The Board of Directors will consider petitions from individuals who may have extenuating circumstances for not meeting their obligations.

CEUs derived from CE activities are calculated using the following guidelines:

1. Attendance at the annual meeting of the American Academy of Oral and Maxillofacial Radiology, or other national or international conferences, CE course, seminars or workshops related to OMR (1 CEU per hour of credit awarded)
2. CE courses or other presentations given related to OMR (2 CEUs per hour of CE given; 2 CEUs per abstract poster or oral abstract presentation)
3. Publications dealing with OMR
 - a. Primary/first author in a peer-reviewed journal; book; book chapter; monograph (10 CEUs per publication)
 - b. Contributing author in a peer-reviewed journal; book; book chapter, monograph (5 CEUs per publication)
 - c. Primary/first author in a non-refereed publication (5 CEUs per publication)

A minimum of 20 points in 3 years must be earned from activities #1-#3.

4. Teaching
 - a. Full time faculty status (10 CEUs per academic year)
 - b. Part time faculty status (1 CEU per half day per week per academic year)
5. Clinical Practice in OMR
 - a. Full time (10 CEUs per year)
 - b. Part time (1 CEU per half day per week per year)

A maximum number of 30 points in 3 years may be earned from activities #4-#5.

Adopted October 15, 1997.
Revised October 2, 2001; Dec. 2, 2003.

ORAL AND MAXILLOFACIAL SURGERY

In January 2009, the Board implemented its Certification Maintenance (CM) in Oral and Maxillofacial Surgery program. The CM incorporates the same primary components as those espoused by the American Board of Medical Specialties.

Professional Standing

The Diplomate provides evidence of professional standing on an annual basis when the Diplomate submits his/her annual registration. Credentialing information provided indicates whether a Diplomate has an unrestricted medical and/or dental license and

RECERTIFICATION POLICIES (cont)

current hospital privileges permitting performance of core procedures in oral and maxillofacial surgery.

Lifelong Learning and Self-Assessment

The Diplomate must show evidence that 90 hours of continuing education have been completed within three years of applying for the Recertification Examination.

The Diplomate must show evidence of completion of the ABOMS self-assessment tool (COMSSAT) that will be web based and delivered in a specified period of time. This is a self-assessment. No scores are required nor reported. The COMSSAT must be completed before the Diplomate can apply for the Recertification Examination.

Cognitive Expertise

The Diplomate must successfully complete the Recertification Examination (RE). The RE must be successfully completed by the 10th anniversary of the original certificate date, but no earlier than the 8th anniversary of that date. Diplomates will have three (3) consecutive opportunities to take and pass the Recertification Examination. Upon successful completion of the RE and the Certification Maintenance process, a new certificate will be issued that will certify the Diplomate for ten (10) years following the expiration of their current certificate.

Evaluation of Performance in Practice

A Diplomate must show evidence of practice performance by completing an Office Anesthesia Evaluation (OAE) program within the timeframe set by the AAOMS or jurisdictional licensing body. Alternative pathways are available for Diplomates unable to participate in the specified OA.

ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS

Certificates are limited to 10 years; therefore, a Recertification Examination is required to maintain certification. The requirements for each Recertification Exam will differ depending on one's progression level (1st Recertification through 4th Recertification). The Diplomate may re-certify within two years prior to certificate expiration and may re-examine to meet requirements prior to certificate expiration. A Diplomate who does not complete re-certification prior to certificate expiration loses board certification and must take the same exam at some future time in order to acquire certification.

Diplomates who received certification prior to January 1, 1998 are not required to recertify, but may take a Voluntary Recertification Examination at any time.

PEDIATRIC DENTISTRY

The Renewal of Certification Process (ROC-P) is a four-part process that includes annual requirements (Parts 1, 2 and 4) and an examination once every 10 years (Part 3):

1. Evidence of professional standing
 - Completed annually along with ABPD Annual Diplomate Renewal update. The Credentials Survey requires the Diplomate to report on three specific areas:
 1. Any disciplinary action initiated or pending by a state licensing board or military tribunal.
 2. The suspension or revocation of the license.
 3. The attestation of an active license to practice dentistry.
2. Evidence of lifelong learning and continuing scholarship
 1. Completion of 15 hours of continuing education each year.
 2. Attendance of a Comprehensive Review of Pediatric Dentistry course such as the one sponsored by the AAPD, or a similarly recognized international course in Pediatric Dentistry, each 10 years.

3. Evidence of Cognitive Expertise
Based on Performance on an Examination is required by the completion of Renewal of Certification Examination.
4. Evidence of performance in practice
Obtained by completion of Continuous Quality Improvement (CQI) modules. These modules are either chart-based reviews from your practice/clinic or responses to subject-based questions from the AAPD Guidelines and Policies and their associated references.

Time-limited diplomates must participate in all four parts. Unlimited diplomates are encouraged to participate voluntarily in Parts 2, 3 and 4.

PERIODONTICS

Statement of compliance to continuing educational requirements and other professional activities directed toward maintaining current knowledge and competence in Periodontics shall be required of all Diplomates, except those in retired status. Failure to meet this requirement will cause the Diplomate to be placed on inactive status. Diplomates are required to meet recertification requirements every six (6) years by attaining BOTH of the following: 1) Completion of the ABP Self Study Recertification Program (SSRP) and 2) at least 60 points of continuing education credit.

Beginning May 2013 candidates who successfully complete the Oral Examination will be awarded time-limited certificates of six (6) years. Diplomate must complete Recertification requirements in the sixth year or lose Diplomate status and will be required to begin the certification process again. A one year extension period to complete Recertification may be requested due to extenuating circumstances (i.e. severe illness, etc). Requests will be reviewed by the Directors for approval. Ultimately, granting of a one year extension is at the sole discretion of the Directors.

Diplomates who were awarded certificates prior to May 2013 will continue to have certificates which are not time limited. Diplomates certified prior to 2013 who fail to complete the Recertification requirements on time will result in the individual's Diplomate status being placed into "Suspended" status during which time the individual cannot claim to be "Board Certified". This "Suspended" status will remain in place until the individual completes the Recertification process and is returned to Active Diplomate status. During this time the individual will not be recognized as and cannot claim to be a Board-Certified Diplomate of the American Board of Periodontology.

Request for a one year extension to complete the recertification requirement may be requested.

Points	Activity
(7)	Attendance at the American Academy of Periodontology Annual Meeting
(5)	Attendance at a national or international multiple day meetings that are within the scope of periodontics
(2)	Completion of ABP Self Study Recertification Program (SSRP)
(2) per day	Attendance at Regional Meetings either National or International devoted to topics within the scope of periodontics
(2) per day	Attendance at conferences related to topics within the scope of periodontics, sponsored by a University or The American Academy of Periodontology.
(2) per day	Courses taken applicable to topics within the scope of periodontics.
(4) per day	Courses given applicable to topics within the scope of periodontics.
(1)	Courses taken online related to topics within the scope of periodontics.
(3)	Publication, as primary author, in: <ol style="list-style-type: none"> a) National and/or International Journal (those listed in Index of Dental Literature) b) Book Chapter(s)
(2)	Publication, as primary author, in State Dental Journals

- (1) Publication, as secondary author
 (1) per day Teaching – a maximum of fourteen points during a six-year period may be credited for teaching.

PROSTHODONTICS

Summary - Requirements for Recertification.

Complete (40) points of continuing education. Completion of at least one (1) self-assessment. Progression of continued proficiency will be monitored yearly. **Continuing Education:** Beginning January 1, 1996, attainment of at least forty (40) points in an eight-year period will be required of all Diplomates except those in a Life Diplomate status. **A maximum of ten (10) points per year will be allowed towards the total for forty (40) points.** Points may be accumulated in the following ways:

1. Attendance at a scientific session sponsored by a major Prosthodontic organization (one point per day).
2. Other courses, conferences and meetings applicable to Prosthodontics preferably "CERP" approved (one point per day).
- 3.* Publications in peer reviewed Journals (not to include abstracts), (two points per publication).
- 4.* Prosthodontic book chapters (one point per chapter).
- 5.* Professional lectures given and study club activities related to prosthodontics (one point per day).

***A maximum of sixteen (16) points in an eight (8) year period may be credited from publications, lectures and study group activities. Activities of ½ day will earn ½ point (three hours equal ½ point).**

Self-Assessment

A self-assessment of recent Prosthodontic advances will be prepared by the Board. This test can be requested on the annual registration form beginning in 1998. A package of questions with score card will be mailed to the Diplomates requesting the self-assessment. The completed score card will be mailed to the Executive Director of the Board, logged and scored.

At least one (1) documented self-assessment is required in the eight (8) year certification period.
