

Report of April 2020 Code Maintenance Committee Special Meeting Actions

1 **Inventory #: S01**

2 Code Maintenance Committee Action:

3 The committee approved motions to: a) parse the proposed single code addition into two separate
4 additions to distinguish between an antigen test procedure and an antibody test procedure; and b) to
5 revise the nomenclature(s) to acknowledge that such procedures include, but are not limited to, testing to
6 identify patients who may be infected with SARS-CoV-2 (aka COVID-19).

7 The CMC, by consensus, considered the two additions a pair of related action requests, and there was a
8 single motion to accept both for inclusion in CDT 2021.

Motion to Accept for Inclusion in CDT 2021					
Decision					
Approve	X	Reject		Other	
Remarks / Rationale for "Reject" / Explanation of "Other"					

9 **D0xxx antigen testing for a public health related pathogen, including coronavirus**

10 **D0xxx antibody testing for a public health related pathogen, including coronavirus**
