Revised Review Committees and Review Committee Meetings

**EOPP Page 15**

**II. REVIEW COMMITTEES AND BOARD OF COMMISSIONERS**

**A. REVIEW COMMITTEES AND REVIEW COMMITTEE MEETINGS**

**1. Structure:** The chair of each Review Committee will be the appointed Commissioner from the relevant discipline.

i. The Commission will appoint all Review Committee members.

a. Review Committee positions not designated as discipline-specific will be appointed from the Commission where feasible, e.g. a public representative on the Commission could be appointed to serve as the public member on the Dental Laboratory Technology Review Committee; an ADA appointee to the Commission could be appointed to the Dental Assisting Review Committee as the general dentist practitioner.

b. Discipline-specific positions on Review Committees will be filled by appointment by the
Commission of an individual from a small group of qualified nominees (at least two) submitted by the relevant national organization, discipline-specific sponsoring organization or certifying board. Nominating organizations may elect to rank their nominees, if they so choose. If fewer than two (2) qualified nominees are submitted, the appointment process will be delayed until such time as the minimum number of required qualified nominations is received.

ii. Consensus is the method used for decision making; however if consensus cannot be reached and a vote is required, then the Chair may only vote in the case of a tie (American Institute of Parliamentarians Standard Code of Parliamentary Procedures).

iii. Member terms will be staggered, four year appointments; multiple terms may be served on the same or a different committee, with a one-year waiting period between terms. A maximum of two (2) terms may be served in total. The one-year waiting period between terms does not apply to public members.

iv. One public member will be appointed to each committee.

v. The size of each Review Committee will be determined by the committee’s workload.

vi. As a committee’s workload increases, additional members will be appointed while maintaining the balance between the number of content experts and non-content experts. Committees may formally request an additional member through New Business at Review Committee/Commission meetings. If an additional member is approved, this member must be a joint nomination from the professional organization and certifying board, as applicable.

vii. Conflict of interest policies and procedures are applicable to all Review Committee members.

viii. Review Committee members who have not had not been on a site visit within the last two (2) years prior to their appointment on a Review Committee should observe at least one site visit within their first year of service on the Review Committee.

ix. In the case of less than 50% of discipline-specific experts, including the Chair, available for a review committee meeting, for specified agenda items or for the entire meeting, the Review Committee Chair may temporarily appoint an additional discipline-specific expert(s) with the approval of the CODA Director. The substitute should be a previous Review Committee member or an individual approved by both the Review Committee Chair and the CODA Director. The substitute would have the privileges of speaking, making motions and voting. In the event that fewer than 50% of discipline-specific experts are present for any one discipline, the decision by a quorum of the Review Committee shall be acceptable.

x. Consent agendas may be used by Review Committees, when appropriate, and may be approved by a quorum of the Review Committee present at the meeting; however, more than 50% of the discipline-specific members must be present at the meeting to evaluate the consent agenda.

Revised: 1/20; 8/18; 8/17; 2/15; 1/14, 2/13, 8/10, 7/09; 7/08; 7/07; Adopted: 1/06

No current or former Commission volunteer, including members of the Board of Commissioners, the Review Committees, the Appeal Board, and Consultants/Site Visitors may issue a public statement, or serve on an external committee as a spokesperson in the name of the Commission.

In their capacity as educators and practitioners, Commission volunteers may be asked from time to time by an external agency to participate in activities related to dental education and accreditation. If a Commission volunteer serves in this capacity, they must disclose to the external agency and the
Commission their plan to participate, the role they will serve, and a disclosure statement that they do not speak on behalf of the Commission.

Revised Program Fee Policy
EOPP Page 46

J. PROGRAM FEE POLICY

Programs accredited by the Commission pay an annual fee. The annual fee is doubled in the year of the program’s regular interval accreditation site visit. As there is some variation in fees for different disciplines based on actual accreditation costs, programs should contact the Commission office for specific information. Other than doubling of the annual fee during the site visit year, site visits are conducted without any additional charge to the institution and the Commission assumes all expenses incurred by its site visitors. However, accredited programs with multiple sites which must be site visited during a regular site visit and programs sponsored by the U.S. military in international locations are assessed a fee at the time of the site visit. The fee is established on a case-by-case basis, dependent upon the specific requirements to conduct the visit (e.g. additional site visitors, additional days, and additional travel time and expenses). Fees are also assessed to the program for the conduct of special focused site visits. (See Invoicing Process for Special Focused Site Visits in Policy on Special Site Visits).

International dental education programs also pay an annual fee and site visit fees (See International Dental Education Site Visits). Expenses for representatives from the state board of dentistry or from other agencies, such as a regional accrediting agency, are not assumed by the Commission. Fee structures are evaluated annually by the Commission. The Commission office should be contacted for current information on fees.

An annual administrative fee is also applied to each program. Fees may also be associated with staff consulting services (See Staff Consulting Services, and International Policies and Procedures), conversion of materials from paper to electronic format (See Electronic Submission of Accreditation Materials); administrative fees related to the Commission policy on protected health information and personally identifiable information (See Policy and Procedures Related to Compliance with the Health Insurance Portability and Accountability Act).

All institutions offering programs accredited by the Commission on Dental Accreditation are expected to adhere to the due date for payment of all fees for each accredited program sponsored by the institution. Written requests for an extension must specify a payment date no later than thirty (30) days beyond the initial due date. Failure to pay fees by the designated deadline is viewed as an institutional decision to no longer participate in the Commission’s accreditation program. Following appropriate reminder notice(s), if payment or a request for extension is not received, it will be assumed that the institution no longer wishes to participate in the accreditation program. In this event, the Commission will immediately notify the chief executive officer of the institution of its intent to withdraw the accreditation of the program(s) at its next scheduled meeting. Programs which have been discontinued or had accreditation withdrawn will not be issued a refund of accreditation fees.

Revised: 1/20; 2/19; 2/15; 8/14; 8/13; 7/08; Reaffirmed: 8/18; 8/13; 8/10, 7/07, 7/01, 7/95
K. POLICY ON CODA ADMINISTRATIVE FUND

In 2020, the Commission on Dental Accreditation approved the reclassification of its Research and Development Fund (R&D Fund) to an Administrative Fund.

The Commission on Dental Accreditation Administrative Fund may include but is not limited to the following uses:

- Commission studies and activities related to quality assurance and strategic planning
- Conduct of business through newly formed ad hoc or sub-committees not previously budgeted; engagement of site visitors to gain unique expertise or to provide training
- Ongoing review and enhancement of business resources, human resources, and technology resources in various aspects of the CODA accreditation program
- Expenses related to Shared Services Agreement with the American Dental Association not previously budgeted
- Other business purposes as applicable to the work of the Commission on Dental Accreditation

Criteria Guideline for Distribution of Funds:

1. Funds $5,000 or less: Funds in this category are classified as discretionary funds that may be used by the CODA Director. A maximum of $5,000 per use is permissible, with a requirement for immediate reporting on the use of the funds, via email, to the Finance Committee for informational purposes. The discretionary funds do not require a formal request by a CODA committee, nor do they require prior approval for use by the Finance Committee or Commission.
2. Funds between $5,001 and $20,000: Projects which require this level of funding must be reviewed and approved by the Finance Committee prior to use. Approval by the Commission is not required.
3. Funds greater than $20,000: Projects which require funding in excess of $20,000 must be submitted for review and approval by the Commission upon recommendation of the Finance Committee.

All Funding Disbursements:

- The Finance Committee and Commission will review a full accounting of the Administrative Fund and uses of the fund at each finance committee and Commission meeting.
- Fund allocations requiring approval by the Finance Committee or the Commission require formal requests/proposals from the Commission’s review committees or standing committees; disbursement of funds within the Director’s discretionary allocation do not require formalized requests.

F. SELF-STUDY GENERAL INFORMATION

In preparation for a site visit, institutions are required to complete a self-study for each program being evaluated. A self-study involves an analysis of the program in terms of the accreditation standards and an assessment of the effectiveness of the entire educational program. It includes a review of the relevance of all its activities to its stated purposes and objectives and a realistic appraisal of its achievements and
deficiencies. The self-study process permits a program to measure itself qualitatively prior to evaluation by an on-site committee of peers in education and the profession. On-site evaluation assesses the degree to which the accreditation standards are met and assists the program in identifying strengths and weaknesses.

The self-study manual includes questions which require qualitative evaluation and analysis of the educational program. The intent of the self-study process is to identify program strengths and weaknesses. Latitude is permitted in interpreting questions to meet the specific needs of the program; however, Commission staff should be consulted if revisions are planned.

Visiting committee members review the completed self-study documents in preparation for conducting an on-site review. Any requests by committee members for additional materials relating to the on-site review are forwarded to the institution by the Commission staff, when staff attends the visit, or site visit chair. All such requests are compiled into one official communication from the Commission staff or site visit chair to the institution. Individual site visitors may not request additional material or information directly from an institution. The institution’s response serves as an addendum to the self-study document.

The sponsoring institution is required to forward a copy of the completed self-study document to each member of the visiting committee and to the Commission office no later than sixty (60) days prior to the scheduled site visit. If the self-study document is submitted with insufficient time for site visitor review, the visit may be canceled. Further, if an opportunity to reschedule the visit within the same calendar year is not available, the Commission will be informed. Failure to submit the self-study within the expected deadline could affect the accreditation status of the program. Visiting committee members review the completed self-study documents. Any requests by committee members for additional materials relating to the on-site review are forwarded to the institution by the Commission staff, when staff attends the visit, or site visit chair. All such requests are compiled into one official communication from the Commission staff or site visit chair to the institution. Individual site visitors may not request additional material or information directly from an institution. The institution’s response serves as an addendum to the self-study document.

Guidelines for preparing self-study documents for each discipline, including more specific information and instructions, and Electronic Submission Guidelines, are available upon request from the Commission office or on the Commission’s website.

Revised Policy on Site Visits-Invoicing for Special Focused Site Visits
EOPP Page 60

I. SITE VISITS

Invoicing Process for Special Focused Site Visits

Invoice #1—In advance of the special focused site visit, the program will remit payment for the Administrative Fee ($4,320 in 2019; $5,000 in 2020 and 2021) and $1,500 per site visitor/staff attending visits up to two (2) days in length. 75% of the remaining estimated actual expenses (calculated as an estimate, 75% of $1200 per site visitor or staff). Site visits that are three (3) or more days will be billed an additional $500 per site visitor/staff for each additional day; further, if additional airfare or transportation expenses are incurred, these will be assessed to the program. Failure to submit the special focused site visit fee in advance of the visit may result in a delay of the visit and additional rescheduling cost to the program, and may impact the program’s accreditation status. See Program Fee Policy.
Invoice #2: Following the site visit, the program will remit payment for the remaining balance of actual expenses to the Commission.

J. SITE VISITORS

2. Criteria For Nomination Of Site Visitors: For predoctoral dental education programs, the Commission solicits nominations for site visitors from the American Dental Education Association to serve in five of six roles on dental education program site visits. The site visitor roles are Chair, Basic Science, Clinical Science, Curriculum, and Finance. Nominations for the sixth role, national licensure site visitor, are solicited from the American Association of Dental Boards.

For advanced dental education programs, the Commission solicits nominations for site visitors from the discipline-specific sponsoring organizations and their certifying boards.

For allied dental education programs, the American Dental Education Association is an additional source of nominations that augments, not supersedes, the nominations from the Commission’s other participating organizations, American Dental Assistants Association (ADAA), American Dental Hygienists’ Association (ADHA) and National Association of Dental Laboratories (NADL).

Revised: 8/18; 8/15; 8/14; 8/12; reaffirmed: 8/19; 8/10, 7/07, 7/01; CODA: 05/93:6-7

The Commission requests all agencies nominating site visitors to consider regional distribution, gender and minority representation and previous experience as a site visitor. Although site visitors are nominated by a variety of sources, the Commission carefully reviews the nominations and appoints site visitors on the basis of need in particular areas of expertise. The pool of site visitors is utilized for on-site evaluations, for special consultations and for special or Review Committees.

All site visitors are appointed for a one-year term and may be re-appointed annually for a total of six consecutive years. Appointments are made at the Winter (January/February) Commission meeting and become effective with the close of the ADA annual session in the Fall.

Revised: 1/20; 8/19; 8/18; 8/14; 8/12, 7/09, 7/07, 7/01; reaffirmed: 8/10; adopted: 7/98

A. Predoctoral Dental Education: The accreditation of predoctoral dental education programs is conducted through the mechanism of a visiting committee. Membership on such visiting committees is general dentistry oriented rather than discipline or subject matter area oriented. The composition of such committees shall be comprised, insofar as possible, of site visitors having broad expertise in dental curriculum, basic sciences, clinical sciences, finance, national licensure (practitioner) and one Commission staff member. The evaluation visit is oriented to an assessment of the educational program’s success in training competent general practitioners.

Although a basic science or clinical science site visitor may have training in a specific basic science or discipline-specific advanced dental education area, it is expected that when serving as a member of the core committee evaluating the predoctoral program, the site visitor serves as a general dentist. Further, it is expected that all findings, conclusions or recommendations that are to be included in the report must have the concurrence of the visiting committee team members to ensure that the report reflects the judgment of the entire visiting committee.
In appointing site visitors, the Commission takes into account a balance in geographic distribution as well as representation of the various types of educational settings and diversity. Because the Commission views the accreditation process as one of peer review, predoctoral dental education site visitors, with the exception of the national licensure site visitor, are affiliated with dental education programs.

The following are criteria for the six roles of predoctoral dental education site visitors:

Chair:
- Must be a current dean of a dental school or have served as dean within the previous three (3) years.
- Should have accreditation experience through an affiliation with a dental education program accredited by the Commission and as a previous site visitor.

Basic Science:
- Must be an individual who currently teaches one or more biomedical science courses to dental education students or has done so within the previous three (3) years.
- Should have accreditation experience through an affiliation with a dental education program accredited by the Commission or as a previous site visitor.

Clinical Science:
- Must be a current clinical dean or an individual with extensive knowledge of and experience with the quality assurance process and overall clinic operations.
- Has served in the above capacity within the previous three (3) years.
- Should have accreditation experience through an affiliation with a dental education program accredited by the Commission or as a previous site visitor.

Curriculum:
- Must be a current academic affairs dean or an individual with extensive knowledge and experience in curriculum management.
- Has served in the above capacity within the previous three (3) years.
- Should have accreditation experience through an affiliation with a dental education program accredited by the Commission or as a previous site visitor.

Finance:
- Must be a current financial officer of a dental school or an individual with extensive knowledge of and experience with the business, finance and administration of a dental school.
- Has served in the above capacity within the previous three (3) years.
- Should have accreditation experience through an affiliation with a dental education program accredited by the Commission or as a previous site visitor.

National Licensure:
- Should be a current clinical board examiner or have served in that capacity within the previous three (3) years.
- Should have an interest in the accreditation process.

Revised: 8/18; 2/18; 2/16; 8/14; 1/99; Reaffirmed: 8/19; 8/10, 7/07, 7/01; CODA: 07/05, 05/77:4

B. Advanced Dental Education: In the disciplines of dental public health, endodontics, oral and maxillofacial pathology, oral and maxillofacial radiology, oral and maxillofacial surgery, orthodontics and dentofacial orthopedics, pediatric dentistry, periodontics and prosthodontics, sponsoring organizations are advised that candidates recommended to serve as site visitors be board certified and/or
have completed or participated in a CODA-accredited advanced dental education program in the
discipline and must have experience in advanced dental education as teachers or administrators. Each
applicable Review Committee will determine if board certification is required. Some sponsoring
organizations have established additional criteria for their nominations to the Commission.

The Commission requests all agencies nominating site visitors to consider regional distribution,
gender and minority representation and previous experience as a site visitor. Although site visitors
are nominated by a variety of sources, the Commission carefully reviews the nominations and
appoints site visitors on the basis of need in particular areas of expertise. The pool of site visitors is
utilized for on-site evaluations, for special consultations and for special or Review Committees.

All site visitors are appointed for a one-year term and may be re-appointed annually for a total of six
consecutive years. Appointments are made at the Winter (January/February) Commission meeting
and become effective with the close of the ADA annual session in the Fall.

Revised Policy on Program Changes
EOPP Page 82

C. REPORTING PROGRAM CHANGES IN ACCREDITED PROGRAMS

The Commission on Dental Accreditation recognizes that education and accreditation are dynamic, not
static, processes. Ongoing review and evaluation often lead to changes in an educational program. The
Commission views change as part of a healthy educational process and encourages programs to make
them as part of their normal operating procedures.

At times, however, more significant changes occur in a program. Changes have a direct and significant
impact on the program’s potential ability to comply with the accreditation standards. These changes tend
to occur in the areas of finances, program administration, enrollment, curriculum and clinical/laboratory
facilities, but may also occur in other areas. All program changes that could affect the ability of the
program to comply with the Accreditation Standards must be reported to the Commission. When a
change is planned, Commission staff should be consulted to determine reporting requirements. Reporting
program changes in the Annual Survey does not preclude the requirement to report changes directly to the
Commission. Failure to report and receive approval in advance of implementing the change, using the
Guidelines for Reporting Program Change, may result in review by the Commission, a special site visit,
and may jeopardize the program’s accreditation status.

Advanced dental education programs must adhere to the Policy on Enrollment Increases in Advanced
Dental Education Programs. In addition, programs adding off-campus sites must adhere to the Policy on
Reporting and Approval of Sites Where Educational Activity Occurs. Guidelines for Reporting and
Approval of Sites where Educational Activity Occurs are available from the Commission office.
Guidelines for Requesting an Increase in Enrollment in a Predoctoral Dental Education Program and
Guidelines for Reporting Enrollment Increases in Advanced Dental Education Programs are available
from the Commission office.

All program changes must be reported to the Commission. On occasion, the Commission may learn of
program changes which may impact the program’s ability to comply with accreditation standards or
policy. In these situations, CODA will contact the sponsoring institution and program to determine
whether reporting may be necessary. Failure to report and receive approval prior to the program change
may result in further review by the Commission and/or a special site visit, and may jeopardize the program’s accreditation status.

The Commission’s Policy on Integrity also applies to the reporting of changes. If the Commission determines that an intentional breech of integrity has occurred, the Commission will immediately notify the chief executive officer of the institution of its intent to withdraw the accreditation of the program(s) at its next scheduled meeting.

When a change is planned, Commission staff should be consulted to determine reporting requirements. A Report of Program Change This report must document how the program will continue to meet accreditation standards. The Commission’s Guidelines for Reporting Program Changes are available on the Commission’s website and may clarify what constitutes a change and provide guidance in adequately explaining and documenting such changes.

The following examples illustrate, but are not limited to, changes that must be reported by June 1 or December 1 and must be reviewed by the appropriate Review Committee and approved by the Commission prior to the implementation to ensure that the program continues to meet the accreditation standards:

- Establishment of Off-Campus Sites not owned by the sponsoring institution used to meet accreditation standards or program requirements (See Guidelines on Reporting and Approval of Sites Where Educational Activity Occurs);
- Changes to Off-Campus Sites not owned by the sponsoring institution that impacts the use of the site (e.g. minor site to major site, or termination of enrollment at or discontinued use of major site);
- Transfer of sponsorship from one institution to another;
- Moving a program from one geographic site to another, including but not limited to geographic moves within the same institution;
- Program director qualifications not in compliance with the standards. In lieu of a CV, a copy of the new or acting program director’s completed BioSketch must be provided to Commission staff. Contact Commission Staff for the BioSketch template.
- Substantial increase in program enrollment as determined by preliminary review by the discipline-specific Review Committee Chair.
  - Requests for retroactive permanent increases in enrollment will not be considered. Requests for retroactive temporary increases in enrollment may be considered due to special circumstances on a case-by-case basis. Programs are reminded that resources must be maintained even when the full complement of students/residents is not enrolled in the program. (see Policy on Enrollment Increases In Advanced Dental Education Programs and Predoctoral programs see Guidelines for Requesting an Increase in Enrollment in a Predoctoral Dental Education Program);
- Change in the nature of the program’s financial support that could affect the ability of the program to meet the standards;
- Curriculum changes that could affect the ability of the program to meet the standards;
- Reduction in faculty or support staff time commitment that could affect the ability of the program to meet the standards;
- Change in the required length of the program;
- Reduction of program dental facilities that could affect the ability of the program to meet the standards;
- Addition of advanced standing opportunity; and/or
- Expansion of a developing dental hygiene or assisting program which will only be considered after the program has demonstrated success by graduating the first class, measured outcomes of the academic program, and received approval without reporting requirements.
The Commission recognizes that unexpected, changes may occur. If an unexpected change occurs, it must be reported no more than 30 days following the occurrence. Unexpected changes may be the result of sudden changes in institutional commitment, affiliated agreements between institutions, faculty support, or facility compromise resulting from natural disaster. Failure to proactively plan for change will not be considered an unexpected change. Depending upon the timing and nature of the change, appropriate investigative procedures including a site visit may be warranted.

The following examples illustrate, but are not limited to, additional program changes that must be reported in writing at least thirty (30) days prior to the anticipated implementation of the change and are not reviewed by the Review Committee and the Commission but are reviewed at the next site visit:

- Establishment of Off-Campus Sites owned by the sponsoring institution used to meet accreditation standards or program requirements;
- Expansion or relocation of dental facilities within the same building;
- Change in program director. In lieu of a CV, a copy of the new or acting program director’s completed BioSketch must be provided to Commission staff. Contact Commission Staff for the BioSketch template.
- First-year non-enrollment. See Policy on Non Enrollment of First Year Students/Residents.

The Commission uses the following process when considering reports of program changes. Program administrators have the option of consulting with Commission staff at any time during this process.

1. A program administrator submits the report by **June 1 or December 1**.
2. Commission staff reviews the report to assess its completeness and to determine whether the change could impact the program’s potential ability to comply with the accreditation standards. If this is the case, the report is reviewed by the appropriate Review Committee for the discipline and by the Commission.
3. Receipt of the report and accompanying documentation is acknowledged in one of the following ways:
   a. The program administrator is informed that the report will be reviewed by the appropriate Review Committee and by the Commission at their next regularly scheduled meeting. Additional information may be requested prior to this review if the change is not well-documented; or
   b. The program administrator is informed that the reported change will be reviewed during the next site visit.
4. If the report will be considered by a Review Committee and by the Commission, the report is added to the appropriate agendas. The program administrator receives notice of the results of the Commission’s review.

The following alternatives may be recommended by Review Committees and/or be taken by the Commission in relation to the review of reports of program changes received from accredited educational programs.

- **Approve the report of program change**: If the Review Committee or Commission does not identify any concerns regarding the program’s continued compliance with the accreditation standards, the transmittal letter should advise the institution that the change(s) have been noted and will be reviewed at the next regularly-scheduled site visit to the program.
- **Approve the report of program change and request additional information**: If the Review Committees or Commission does not identify any concerns regarding the program’s compliance with the accreditation standards, but believes follow up reporting is required to ensure continued compliance with accreditation standards, additional information will be requested for review by the Commission. Additional information could occur through a supplemental report or a focused site visit.
- **Postpone action and continue the program’s accreditation status, but request additional information**:
The transmittal letter will inform the institution that the report of program change has been considered, but that concerns regarding continued compliance with the accreditation standards have been identified. Additional specific information regarding the identified concerns will be requested for review by the Commission. The institution will be further advised that, if the additional information submitted does not satisfy the Commission regarding the identified concerns, the Commission reserves the right to request additional documentation, conduct a special focused site visit of the program, or deny the request.

- **Postpone action and continue the program’s accreditation status pending conduct of a special site visit:** If the information submitted with the initial request is insufficient to provide reasonable assurance that the accreditation standards will continue to be met, and the Commission believes that the necessary information can only be obtained on-site, a special focused site visit will be conducted.
- **Deny the request:** If the submitted information does not indicate that the program will continue to comply with the accreditation standards, the Commission will deny the request for a program change. The institutions will be advised that they may re-submit the request with additional information if they choose.

New Policy on Preparation and Submission of Documents to the Commission
EOPP Page 86
(Replaces Policy on Electronic Submission of Accreditation Materials, Commission Policy and Procedure Related to Compliance with the Health Insurance Portability and Accountability Act [HIPAA] and Policy on Preparation and Submission of Reports to the Commission)

### E. POLICY ON PREPARATION AND SUBMISSION OF DOCUMENTS TO THE COMMISSION

All institutions offering programs accredited by the Commission are expected to prepare documents that adhere to guidelines set forth by the Commission on Dental Accreditation, including required verification signatures by the institution’s chief executive officer. These documents may include, but are not limited to, self-study, responses to site visit/progress reports, initial accreditation applications, reports of program change, and transfer of sponsorship and exhibits. The Commission’s various guidelines for preparing and submitting documents, including electronic submission, can be found on the Commission’s website or obtained from the Commission staff.

In addition, all institutions must meet established deadlines for submission of requested information. Any information that does not meet the preparation or submission guidelines or is received after the prescribed deadlines may be returned to the program, which could affect the accreditation status of the program.

**Electronic Submission of Accreditation Materials:** All institutions will provide the Commission with an electronic copy of all accreditation documents and related materials, which conform to the Commission’s Electronic Submission Guidelines. Electronic submission guidelines will be provided to programs. Accreditation documents and related materials must be complete and comprehensive.

Documents that fail to adhere to the stated Guidelines for Submission will not be accepted and the program will be contacted to submit a corrected document. In this case, documents may not be reviewed at the assigned time which may impact the program’s accreditation status.

**Compliance with Health Insurance Portability and Accountability Act (HIPAA).** HIPAA is the federal law that governs how “Covered Entities” handle the privacy and security of patients’ protected health information (PHI). HIPAA Covered Entities include health care providers and health plans that
send certain information electronically. The Commission may be deemed a “Business Associate” of certain institutions that are HIPAA Covered Entities. A Business Associate is an individual or entity that performs a function or activity on behalf of a HIPAA Covered Entity involving the use or disclosure of individually identifiable health information. Business Associates must comply with certain HIPAA Security and Privacy rules and implement training programs. The Commission “HIPPA Policy and Procedure Manual” is updated on a yearly basis. A copy of the manual is available upon request. All Commission site visitors, Review Committee members, Commissioners, and staff are required to attend a CODA HIPAA training session on a yearly basis.

The program’s documentation for CODA must not contain any patient protected health information (PHI) or sensitive personally identifiable information (PII). If the program submits documentation that does not comply with the policy on PHI or PII, CODA will assess an administrative processing fee of $4,000 per program submission to the institution; a program’s resubmission that continues to contain PHI or PII will be assessed an additional $4,000 administrative processing fee.

L. POLICY ON ELECTRONIC SUBMISSION OF ACCREDITATION MATERIALS

All institutions will provide the Commission with an electronic copy of all accreditation documents/reports and related materials. The program’s documentation for CODA must not contain any patient protected health information (PHI) or personally identifiable information (PII).

These documents may include, but are not limited to, self-study, responses to site visit/progress reports, initial accreditation applications, reports of major change, and transfer of sponsorship and exhibits. Electronic submission guidelines will be provided to programs. Accreditation documents/reports and related materials must be complete and comprehensive. If the program submits documentation that does not comply with the policy on PHI and PII (noted above), CODA will assess an administrative processing fee of $4,000 per program submission to the institution; a program’s resubmission that continues to contain PHI or PII will be assessed an additional $4,000 fee.

Revised: 2/19; 2/18; 8/13; 8/12, 8/11, 8/07, 7/06; Reaffirmed: 8/18; 8/13; 8/10; Adopted: 1/06

M. COMMISSION POLICY AND PROCEDURE RELATED TO COMPLIANCE WITH THE HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT (HIPAA)

HIPAA is the federal law that governs how “Covered Entities” handle the privacy and security of patients’ protected health information (PHI). HIPAA Covered Entities include health care providers and health plans that send certain information electronically. The Commission may be deemed a “Business Associate” of certain institutions that are HIPAA Covered Entities. A Business Associate is an individual or entity that performs a function or activity on behalf of a HIPAA Covered Entity involving the use or disclosure of individually identifiable health information. Business Associates must comply with certain HIPAA Security and Privacy rules and implement training programs. The Commission “HIPPA Policy and Procedure Manual” is updated on a yearly basis. A copy of the manual is available upon request. All Commission site visitors, Review Committee members, Commissioners, and staff are required to attend a CODA HIPAA training session on a yearly basis.

The program’s documentation for CODA must not contain any patient protected health information (PHI) or sensitive personally identifiable information (PII). If the program submits documentation that does not comply with the policy on PHI or PII (noted above), CODA will assess an administrative processing fee...
of $4,000 per program submission to the institution; a program’s resubmission that continues to contain
PHI or PII will be assessed an additional $4,000 administrative processing fee.

N. POLICY ON PREPARATION AND SUBMISSION OF REPORTS TO THE COMMISSION

All institutions offering programs accredited by the Commission are expected to prepare reports that
adhere to guidelines set forth by the Commission on Dental Accreditation, including required verification
signatures by the institution’s chief executive officer. The Commission’s various guidelines for preparing
and submitting reports, including electronic submission, can be found on the Commission’s website or
obtained from the Commission staff.

In addition, all institutions must meet established deadlines for submission of requested information. Any
information that does not meet the preparation or submission guidelines or is received after the prescribed
deadline may be returned to the program or held for consideration at the following meeting in accordance
with the wishes of the program. The Commission’s timelines for demonstration of full compliance with
the cited standards will not be modified as a result of the delayed review. See the Commission’s Policy
on Missed Deadlines.

Revised Policy on Enrollment Increases in Advanced Dental Education Programs
EOPP Page 89

K. POLICY ON ENROLLMENT INCREASES IN ADVANCED DENTAL EDUCATION PROGRAMS

An advanced dental education program considering or planning an enrollment increase, or any other
substantive change, should notify the Commission early in the program’s planning. Such notification will
provide an opportunity for the program to seek consultation from Commission staff regarding the
potential effect of the proposed change on the accreditation status and the procedures to be followed.

The following advanced dental education disciplines have authorized total complement enrollment: dental
public health, endodontics, oral and maxillofacial pathology, oral and maxillofacial radiology, oral and
maxillofacial surgery (per year enrollment is authorized), orthodontics and dentofacial orthopedics,
pediatric dentistry, periodontics, and prosthodontics. Programs with authorized enrollment must use the
discipline-specific Guidelines to request and obtain approval for an increase in enrollment prior to
implementing the increase.

The following advanced dental education disciplines do not have authorized enrollment: advanced
education in general dentistry, general practice residency, dental anesthesiology, oral medicine, and
orofacial pain. Programs must use the discipline-specific Guidelines to request an increase in enrollment
prior to implementing the increase. Upon submission of the program change report, a substantial increase
in program enrollment as determined by preliminary review by the discipline-specific Review Committee
Chair will require prior approval by CODA.

A request for an increase in enrollment with all supporting documentation must be submitted in writing to
the Commission by June 1 or December 1. A program must receive Commission approval for an increase
in enrollment prior to publishing or announcing the additional positions or accepting additional
students/residents. Failure to comply with this policy will jeopardize the program’s accreditation status,
up to and including withdrawal of accreditation.
Requests for *retroactive permanent* increases in enrollment will not be considered. The Commission may consider *temporary or retroactive temporary* enrollment increases due to special circumstances on a case-by-case basis, including, but not limited to:

- Student/Resident extending program length due to illness, *parental leave*, incomplete projects/clinical assignments, or concurrent enrollment in another program;
- Unexpected loss of an enrollee and need to maintain balance of manpower needs;
- Urgent manpower needs demanded by U.S. armed forces; and
- Natural disasters.

If a program has enrolled beyond the approved number of students/residents without prior approval by the Commission, the Commission may or may not retroactively approve the enrollment increase without a special focused site visit at the program’s expense.

If the focused visit determines that the program does not have the resources to support the additional student(s)/resident(s), the program will be placed on “intent to withdraw” status and no additional student(s)/resident(s) beyond the previously approved number may be admitted to the program until the deficiencies have been rectified and approved by the Commission. Student(s)/Resident(s) who have already been formally accepted or enrolled in the program will be allowed to continue.

Revised Guidelines for Requesting and Increase in Enrollment in a Predoctoral Dental Education Program

L. GUIDELINES FOR REQUESTING AN INCREASE IN ENROLLMENT IN A PREDOCTORAL DENTAL EDUCATION PROGRAM

Guidelines for requesting an increase in enrollment in a predoctoral dental education program complement the Commission’s Policy on Reporting Program Change and are available upon request from the Commission Office. These Guidelines focus upon the adequacy of programmatic resources in support of additional student enrollees. Enrollment increases are tracked to ensure over time total enrollment does not exceed the resources of the program.

A program considering or planning an enrollment increase, or any other substantive change, should notify the Commission early in the program’s planning.

Approval of an increase in enrollment in predoctoral dental education programs must be reported to the Commission if the program’s total enrollment increases beyond the enrollment at the last site visit or prior approval of enrollment increase. Upon submission of the enrollment increase report, a substantial increase in program enrollment as determined by preliminary review by the discipline-specific Review Committee Chair will require prior approval by CODA. Programs should be cognizant of the impending need for enrollment increases through short- and long-term planning and proactively request permission for the increase. The Commission will not consider *retroactive permanent* requests, nor will it consider inter-cycle requests unless there are documented extenuating circumstances.

**Revised Commission History and Background**  
**EOPP Page 122**

**IX. COMMISSION HISTORY AND BACKGROUND**

The American Dental Association (ADA) authorized the Council on Dental Education to accredit dental schools in 1938; however, the *Requirements for the Approval of a Dental School* did not go into effect until the 1941-42 academic year. The Council’s initial accrediting activities were confined to dental schools. As the dental profession developed and grew, however, the scope of accrediting activities also grew. Current activities include accreditation of educational programs for dental assisting, dental hygiene and dental laboratory technology and accreditation of advanced dental education programs, in addition to predoctoral dental education programs.

In 1973, the House of Delegates of the American Dental Association approved the establishment of a Commission on Accreditation of Dental and Dental Auxiliary Educational Programs. In 1979 this body’s name was officially changed to the Commission on Dental Accreditation. The twenty (20) member Commission included the twelve (12) Council on Dental Education members, four of whom represented the American Dental Association (ADEA), four the American Association of Dental Boards and four the American Dental Education Association. The additional eight (8) Commission representatives included
two (2) dental specialists selected by specialty organizations having certifying boards recognized by the Association, one (1) representative selected by the American Dental Assistants Association, one (1) representative selected by the American Dental Hygienists’ Association, one (1) certified dental laboratory technician selected by the National Association of Dental Laboratories, one (1) student representative selected jointly by the American Student Dental Association and the Council of Students of the American Dental Education Association and two (2) public representatives selected by the Council on Dental Education.

In 1979 the Commission on Accreditation of Dental and Dental Auxiliary Education Programs was renamed the Commission on Dental Accreditation.

In 1996, the ADA House of Delegates adopted two resolutions (84H-1996 and 142H-1996) calling for the restructuring of the ADA’s Council on Dental Education and the Commission on Dental Accreditation. Specifically, members of the Council on Dental Education would no longer serve concurrently as members of the Commission. The Council and Commission became two distinct agencies with separate memberships, at the adjournment of the 1997 House of Delegates.

In August 1997, the Commission adopted revised Rules of the Commission on Dental Accreditation to complement the resolutions adopted by the 1996 House of Delegates. In October 1997, the ADA House of Delegates approved the Commission’s revised Rules. The members of the Commission now includes: four (4) dentists appointed by the American Dental Association, four (4) dentists appointed by the American Dental Education Association, four (4) dentists appointed by the American Association of Dental Boards, one (1) dentist for each ADA recognized specialty appointed by the respective specialty sponsoring organization, one (1) dentist to represent postdoctoral general dentistry jointly appointed by the ADEA and the American Association of Hospital Dentists, one (1) certified dental assistant selected by the American Dental Assistants Association, one (1) licensed dental hygienist selected by the American Dental Hygienists’ Association, one (1) certified dental laboratory technician selected by the National Association of Dental Laboratories, one (1) student jointly selected by ADEA and the American Student Dental Association, and four (4) consumers. Language was also added to clarify that when assigned by the ADA Board of Trustees, a member of the Standing Committee on the New Dentist is an ex-officio member of the Commission without the right to vote (in accord with Chapter VII, Section 150 of the ADA Bylaws.)

In July 2004, the Commission adopted the Request to Establish a Process of Accreditation for Programs in Areas of Advanced Training in General Dentistry (currently called Policies and Procedures for Accreditation of Programs in Areas of Advanced Education in General Dentistry).

In January 2005, the Commission directed that a process of accreditation be established for advanced general dentistry programs in the area of dental anesthesiology and in the area of oral medicine.

In January 2006, the Commission adopted the revised Review Committee Composition which was implemented in January 2007.

In July 2006, the Commission discontinued the use of commendations in written site visit reports.
