Optometry Admission Test (OAT)  
2019 Candidate Guide

Read this Guide before submitting an application to test.

At the time of application, you will be required to acknowledge that you have read and understood this Guide and the policies and procedures contained within.

Print this Guide for your records.
You are required to read this document before you apply to take the examination.

At the time of application, you will be required to confirm that you have read this document, understood its contents, and agree to the policies and procedures contained herein.

Changes to the OAT Program might occur after publication of this Guide and will be posted at ADA.org/OAT. You must abide by the policies and procedures currently in effect at the time of your test administration.

- Irregularities and Appeals
- Arbitration Requirement
ABOUT THIS GUIDE
This document is the official guide to policies and procedures for the Optometry Admission Test (OAT). It provides information such as application and testing procedures, examination content, test security, the consequences of rules violations, and scoring.

ABOUT THE OAT
The Association of Schools and Colleges of Optometry (ASCO) conducts the Optometry Admission Test Program (OAT) to understand the skill levels of applicants seeking admission to schools and colleges of optometry. Optometry programs use this information to inform admissions decisions.

The OAT is designed to measure general academic ability and comprehension of scientific information. The OAT is administered year-round at test centers operated by Prometric, Inc.

OAT results are just one factor considered in evaluating applicant admission potential. Validity studies have shown that OAT scores in conjunction with academic performance are useful in predicting success in optometry school. The relative importance of these predictors in the admission process is determined by each optometry school.

ASSOCIATION OF SCHOOLS AND COLLEGES OF OPTOMETRY (ASCO) AND AMERICAN OPTOMETRIC ASSOCIATION (AOA) INFORMATION
The Association of Schools and Colleges of Optometry (ASCO) provides information on the American Optometric Association (AOA), the names of accredited schools and colleges of optometry, as well as many other useful links at ADA.org/OAT.

For additional information concerning educational requirements and careers in optometry, contact ASCO and the AOA.

ETHICAL CONDUCT IN APPLYING TO OPTOMETRY EDUCATION PROGRAMS

The American Optometric Association (AOA) Code of Ethics states the following:

It shall be the ideal, resolve, and duty of all optometrists:
To keep their patients’ eye, vision, and general health paramount at all times;
To respect the rights and dignity of patients regarding their health care decisions;
To advise their patients whenever consultation with, or referral to, another optometrist or other health professional is appropriate;
To ensure confidentiality and privacy of patients’ protected health and other personal information;
To ensure that all persons have access to eye, vision, and general health care;
To advance their professional knowledge and proficiency to maintain and expand competence to benefit their patients;
To maintain their practices in accordance with professional health care standards;
To promote ethical and cordial relationships with all members of the health care community;
To recognize their obligation to protect the health and welfare of society; and
To conduct themselves as exemplary citizens and professionals with honesty, integrity, fairness, kindness, and compassion.

The above statement is pertinent for all individuals seeking admission to optometry programs. The application process is the time to understand and begin to adhere to the ethical obligations of optometrists.

Members of the optometry profession voluntarily abide by the AOA Code of Ethics in the interest of protecting patients and maintaining the trust of society as a whole.

Submission of an application to an optometry program is the first step in the process of becoming a member of the optometry profession. With the application comes the obligation to uphold the highest standards for honesty and ethical behavior. An applicant is held to the same high standards for truth, full disclosure, and accuracy in the application process to which a member of the optometry profession is held in their capacity as a member of the profession.

Each applicant to optometry programs is expected to understand and comply with the standards expressed in this statement in their application to take the OAT.

Behavior that results in misconduct or irregularity in the optometry program admission process is a very serious matter. An applicant who acts unethically risks being denied admission to optometry programs. Moreover, such unethical actions can result in more serious outcomes if they are discovered after enrollment in an optometry program or at the beginning of optometry practice.

It is important that applicants understand the significance of exhibiting professional behavior throughout their careers, beginning with the application process.

The OAT Program and ASCO expect strong ethical behavior in all current and aspiring optometric professionals.
The OAT is composed of multiple-choice test items presented in the English language. The test is developed according to established test specifications. The OAT consists of four sections: Survey of the Natural Sciences, Reading Comprehension, Physics, and Quantitative Reasoning.

In the OAT, both the U.S. customary system and the metric system (Imperial System, International System) of units are used. Additional information on test content is provided below.

**Survey of the Natural Sciences (100 Items)**

- **Biology (40 items)**
  - Cell and Molecular Biology: origin of life, cell metabolism (including photosynthesis/enzymology), cellular processes, thermodynamics, organelle structure and function, mitosis/meiosis, cell structure, experimental cell biology, biomolecules, and integrated relationships
  - Diversity of Life: Biological Organization and Relationship of Major Taxa (Six-Kingdom, Three-Domain System) – plantae, animalia, protista, fungi, eubacteria (bacteria), archaea, and integrated relationships
  - Structure and Function of Systems: integumentary, skeletal, muscular, circulatory, immunological, digestive, respiratory, urinary, nervous/senses, endocrine, reproductive, and integrated relationships
  - Developmental Biology: fertilization, descriptive embryology, developmental mechanisms, and integrated relationships
  - Genetics: molecular genetics, human genetics, classical genetics, chromosomal genetics, genetic technology, and integrated relationships
  - Evolution, Ecology, and Behavior: natural selection, population genetics/speciation, population and community ecology, ecosystems, animal behavior (including social behavior), and integrated relationships

- **General Chemistry (30 items)**
  - Stoichiometry and General Concepts: percent composition, empirical formulae, balancing equations, moles and molecular formulas, molar mass, density, and calculations from balanced equations
  - Gases: kinetic molecular theory of gases, Dalton's, Boyle's, Charles's, and ideal gas law
  - Liquids and Solids: intermolecular forces, phase changes, vapor pressure, structures, polarity, and properties
  - Solutions: polarity, properties (colligative, noncolligative), forces, and concentration calculations
  - Acids and Bases: pH, strength, Brønsted-Lowry reactions, and calculations
  - Chemical Equilibria: molecular, acid/base, precipitation, calculations, and Le Chatelier’s principle
  - Thermodynamics and Thermochemistry: laws of thermodynamics, Hess’s law, spontaneity, enthalpies and entropies, and heat transfer
  - Chemical Kinetics: rate laws, activation energy, and half-life
  - Oxidation-Reduction Reactions: balancing equations, determination of oxidation numbers, electrochemical calculations, and electrochemical concepts and terminology
  - Atomic and Molecular Structure: electron configuration, orbital types, Lewis-Dot diagrams, atomic theory, quantum theory, molecular geometry, bond types, and sub-atomic particles
  - Periodic Properties: representative elements, transition elements, periodic trends, and descriptive chemistry
  - Nuclear Reactions: balancing equations, binding energy, decay processes, particles, and terminology
  - Laboratory: basic techniques, equipment, error analysis, safety, and data analysis

- **Organic Chemistry (30 items)**
  - Mechanisms: Energetics and Structure - elimination, addition, free radical, substitution mechanisms, and other mechanisms and reactions
  - Chemical and Physical Properties of Molecules: Spectroscopy (1H NMR, 13C NMR, infrared, and multi-spectra), structure (polarity, intermolecular forces (solubility, melting/boiling point, etc.), and laboratory theory and techniques (TLC, separations, etc.)
  - Stereochemistry (structure evaluation): Chirality, isomer relationships, and conformations
  - Nomenclature: IUPAC rules and functional groups in molecules
  - Individual Reactions of the Major Functional Groups and Combinations of Reactions to Synthesize Compounds: Alkene/alkyne, aromatic, substitution/elimination, aldehyde/ketone, carboxylic acids and derivatives, and other. For each area listed above, the following sub-areas apply: general, one-step, and multi-step
  - Acid Base Chemistry: Ranking acidity/basicity (structure analysis and pH/pKa data analysis), and prediction of products and equilibria
  - Aromatics and Bonding: Concept of aromaticity, resonance, atomic/molecular orbitals, hybridization, and bond angles/lengths
TEST CONTENT AND PREPARATION MATERIALS

- **Reading Comprehension (50 items)**
  - The Reading Comprehension Test contains three reading passages on various scientific topics. Prior understanding of the science topics is not a prerequisite to answering the test items. The reading passages require the ability to read, comprehend, and thoroughly analyze basic scientific information.

- **Physics (40 items)**
  - Units and vectors, linear kinematics, statics, dynamics, rotational motion, energy and momentum, simple harmonic motion, waves, fluid statics, thermal energy and thermodynamics, electrostatics, D.C. circuits, and optics.

- **Quantitative Reasoning (40 items)**
  - A basic four-function calculator is available on the computer screen during this section
  - Mathematical Problems: algebra (equations and expressions, inequalities, exponential notation, absolute value, ratios and proportions, and graphical analysis); Data Analysis, Interpretation, and Sufficiency; Quantitative Comparison; and Probability and Statistics
  - Applied Mathematics (Word) Problem

TEST PREPARATION

The OAT Program offers an OAT practice test in a computer-based format to help you prepare. The questions on the practice test previously appeared on the actual test but have been retired from active tests. Visit the OAT page at [ADA.org/OAT](http://ADA.org/OAT) and look under Test Preparation Material to find the OAT practice test.

The OAT Program does not endorse any specific test preparation courses and has no data on the content or efficacy of test preparation courses designed to prepare you to take the OAT.

A tutorial to acquaint you with OAT administration procedures is available from a link on [ADA.org/OAT](http://ADA.org/OAT) under OAT Test Preparation Material. The tutorial includes sample OAT items, and allows you to become familiar with the basic steps involved in proceeding through the test. At the Prometric test center you will also be given an opportunity to take a brief tutorial before taking the test.

You can become familiar with the testing experience through [Prometric's Test Drive](http://Prometric.com) on Prometric.com. In 30 minutes, you will experience an overview of the testing experience you will encounter on the actual testing day. During the overview, you participate in:

- The scheduling and registration process
- The complete check-in process
- Introduction to test center staff and surroundings
- A 15-minute sample test (a generic test, not OAT specific) demonstrating the testing process

Visit Prometric’s [Test Drive](http://Prometric.com) for further details and pricing.

TEST PREPARATION TUTORIAL

Test items represent confidential, copyrighted intellectual property. Obtaining, using, or distributing test items is strictly prohibited regardless of the method employed (whether by memorization, recording, copying, or other means). This prohibition includes the discussion, distribution, or online posting of remembered test questions or answers, in whole or in part.

The use or sharing of current test content violates the Test Regulations and Rules of Conduct of this testing program. Such activities could provide an unfair advantage to individuals or groups of individuals and threaten the validity and credibility of the test. These prohibited activities also violate federal copyright laws since all OAT items are copyrighted property of the ADA.

The OAT Program investigates all reports and allegations associated with the generation, misuse, or sharing of current test materials, and will pursue formal action against anyone who violates the Test Regulations or federal copyright law. Violations could result in the voiding of test results and legal action.
SCORING OF TEST
OAT results are reported in terms of scale scores. These scale scores are neither raw scores (i.e., the number of questions answered correctly) nor percentiles. The conversion of raw scores to scale scores is accomplished using equating procedures.

OAT scores are based on number of correct responses obtained; applicants are not penalized for guessing.

Each test includes questions that enable the OAT Program to place different forms of the test on a common measurement scale, thereby adjusting the forms for any differences in form difficulty level. Because of this adjustment, applicant scores have the same meaning regardless of the test form that was administered.

Other questions on the test are experimental and are not scored. The data collected on unscored questions may be used in later test construction procedures, to ensure that these questions are appropriate before they become scored items. Unscored questions are presented in the same manner as scored questions.

TEST VALIDITY AND SCORE RELIABILITY
Reliability and validity are two means by which users can evaluate how well a test is performing relative to its purpose.

Reliability refers to the degree to which test scores are free from random sources of measurement error. Studies clearly demonstrate that OAT scores are highly reliable.

Validity refers to the extent to which available evidence supports the interpretation and use of test results for their intended purpose. Biennial validity studies examining the relationship between OAT scores and optometry school grades have provided strong evidence supporting use of the OAT as an admission tool for optometry programs. Details of the most recent OAT validity study are available at: ADA.org/OAT.

A number of procedures are used to ensure that tests are fair to all applicants regardless of race, ethnicity, gender, or regional background. The test construction process involves a review of questions to ensure that they are not differentially familiar to any groups of individuals. Additionally, data is analyzed from a fairness perspective. Any questions that might appear differentially familiar are evaluated and, if appropriate, modified, or removed.

SCORE REPORTS
After your OAT appointment is completed, you will receive an unofficial score report at the Prometric test center. In the unofficial score report, scale scores are reported. This report is your personal copy. If you do not receive your unofficial score report after completing the OAT, please notify the OAT Program within five days via an email sent to oatexam@ada.org.

After you have taken any part of the OAT, those scores cannot be voided at your request.

Your personal copy of the score report issued at the Prometric test center is an unofficial report that is subject to audit as part of the quality review process. Falsification of score reports or misrepresentation of a score report could result in cancellation of your scores, the imposition of a mandatory two-year wait period to retest, or the possibility of a lifetime ban from the OAT Program.

U.S. schools and colleges of optometry require official OAT scores for decision making. Official scores will be reported electronically to your “My Account” within three to four weeks of your test date and to the optometry schools you select on your OAT application. You may review the schools you have requested by logging into the My Account page at ADA.org/OAT. When you select optometry schools to receive your official scores, you grant the OAT Program permission to release your official scores to the optometry schools selected on your OAT application, as well as the Optometry Centralized Application Service (OptomCAS). Scores will not be released without your authorization.
SCORE REPORTS (continued)
If you test more than once, a history of your testing attempts is reported. Please confer with your pre-optometry advisor regarding test results. You can request that your scores be made available to your pre-optometry advisor at no charge at the time of application. These reports are sent to pre-optometry advisors on a periodic basis.

If your application has no optometry schools selected, then you have not granted permission to release your official scores. Schools selected at the time of application are included in the OAT fee, regardless of the number of schools selected.

Requests for additional score reports must be submitted using the score report request form available at ADA.org/OAT. Additional fees apply when sending reports to optometry schools or other recipients not selected at the time of application (see the Testing Fees section of this Guide).

Requests to have scores sent to schools cannot be edited or cancelled once submitted, whether on an application or score request.

Score report fees are nonrefundable and nontransferable.

GUIDE FOR INTERPRETATION OF OAT SCORES
Each of the sections on the OAT yields a raw score, which is the sum of the applicant’s correct answers. The raw score is converted to a scale score. On the OAT, scores range from 200 to 400 and are reported in increments of 10. Using a scale score, it is possible to compare performance of one applicant with the performance of all applicants on any or all of the measures included in this admission testing program.

SCORE AUDITS
Before official OAT scores are reported, the OAT Program conducts a quality review of all results in order to confirm their accuracy.

The OAT Program also reviews test center reports regarding irregularities and violations of Test Regulations.

For a period of 30 days after your testing appointment, the OAT Program is willing to audit your OAT results. There is an additional charge for this service (see the Testing Fees section of this Guide). This process can take from four to eight weeks. The audit request form is available at ADA.org/OAT.
The OAT Program does not discriminate based on race, ethnicity, religion, gender, age, disability, sexual orientation, or marital status.

Successful participants in the OAT Program typically complete two or more years of college education before taking the test, including courses in biology, and general and organic chemistry. Advanced level biology and physics are not required.

Optometry school applicants are encouraged to take the OAT well in advance of the optometry school admission cycle. Candidates applying to Canadian optometry schools should confirm the acceptability of the OAT by Canadian schools prior to applying for the test.

ELIGIBILITY TO RETEST
Candidates are required to submit a new application and fee for each testing attempt. A testing attempt is defined as any test administration where the candidate has been seated at a computer at a test center and electronically agreed to the confidentiality statement to start the test.

Candidates must wait at least 90 days from their last attempt before retaking the OAT.

Candidates who have three or more OAT attempts must apply for permission to test again. From that point forward, they may retest only once per 12-month period.

Candidates who are requesting additional testing beyond three attempts must submit their request in writing to oatexam@ada.org and must include one of the following acceptable forms of evidence of their demonstrated intent to apply to optometry school within the previous 18 months:
- Copy of a completed and submitted application to optometry school
- Letter of rejection from an optometry school
- Letter on school letterhead from an optometry school admissions officer encouraging the applicant to retest
- Letter on school letterhead from a college or university health profession advisor or instructor verifying that the applicant is applying to optometry school

PARTIAL TESTING
Partial tests are not permitted. Applicants are required to take all four sections of the OAT. The lowest possible scale score is reported for any assigned test not taken. Individuals unable to complete the OAT must submit a new application and fee to retest.
ADMINISTRATION INFORMATION AND SCHEDULE

TEST CENTERS
The OAT is administered by Prometric, Inc. at Prometric test centers in the United States and its territories, including Guam, Puerto Rico, and the Virgin Islands. The OAT is also administered in Canada. A list of test centers is available at Prometric.com.

If your application is approved, you will receive an email with scheduling instructions. You can visit Prometric.com or call 800.688.5804 to schedule a testing appointment.

The Prometric contact center will NOT schedule your appointment before receiving authorization from the OAT Program. Additionally, local test centers cannot schedule, reschedule, or cancel appointments.

TESTING SCHEDULE
The table below identifies the OAT testing schedule. The total administration time is four hours and 50 minutes, including the tutorial, scheduled break, and survey. You will have four hours and 5 minutes to respond to OAT questions. You must report to the testing center at least 30 minutes prior to your scheduled appointment.

The optional break after the first two tests is the only scheduled break. When you take the scheduled break, the testing session will resume automatically after 15 minutes have elapsed.

If you take a break at any other time, it will be considered an unscheduled break. During an unscheduled break, you may NOT access personal belongings or prohibited items, study, refer to notes or texts, use a telephone, eat or drink any food or beverages, or leave the test center.

Locker access during an unscheduled break is strictly prohibited.

APPLY TO TEST
Before you can apply to take the OAT or apply for admission to an optometry school, you must obtain a Personal Identification Number (PIN). You can register for a PIN at ADA.org/OAT/PIN. If you have tested or applied before August 1, 2014, a PIN has already been assigned to you. You can retrieve your PIN and password at ADA.org/OAT/PIN.

The PIN is a unique personal identifier for individuals involved with the OAT Program. The OAT Program uses the PIN for identification of individuals and for the confidential and secure reporting, transmission, and tracking of test scores.

Once you have a PIN, you may submit an OAT application at ADA.org/OAT. A new application must be submitted each time you wish to take the OAT.

If you meet the eligibility requirements for testing, your application will be processed. This processing takes place Monday through Friday during normal business hours.

The successful processing of your paid application enables you to complete one OAT administration during the testing window. If you do not schedule a testing appointment and take the OAT during this period, you will have to submit a new application and fee in order to take the test.

The six-month eligibility period will not be extended, and you will forfeit your testing fee if you do not test within the six-month period.

All information you provide on your application must be accurate. You must use your legal name. When including a middle name, use either your full middle name or your middle initial.

If the name on your OAT application and your IDs do not match exactly, you will be denied admission to test. As a result, you will forfeit your testing appointment and application fee. You will be required to submit a new application and fee.

Changes and corrections to your application (name, birthdate, etc.) must be completed at least two weeks prior to your scheduled testing appointment. You are responsible for identifying any corrections or omissions and must notify the OAT Program at pin@ada.org.

If you modify your contact information (address, email address, etc.) using the Update Your PIN link, please note that any existing test applications or score report requests are not automatically updated.

During the application and testing process, you will be required to provide information that allows the OAT Program to identify you. This includes your name, PIN, address, year of birth, etc. This information must be provided accurately. If it is determined that you have provided false information to the OAT Program or to the test center, your scores will be voided, and all optometry schools will be notified. You could also have to wait two years to retake the test, or you could be banned from retaking the OAT.
PRIVACY AND SECURITY
The ADA Department of Testing Services uses commercially reasonable methods to secure and protect your confidential information.

The Department of Testing Services (DTS) collects and retains personal information for activities such as administering the OAT, fulfilling OAT program responsibilities, maintaining the integrity of the test, detecting and preventing unlawful activity, and fulfilling legal requirements. DTS may retain OAT scores retained indefinitely, along with testing records and corresponding personal data. Records of your individual results are released or reported to education programs or other entities on your written authorization or designation by electronic means, through the application or score report requests. Scores will not be reported to you or others by telephone, fax, email, or in person.

Before the test is administered, you will be required to execute a written release to the collection of your fingerprints. Fingerprints are collected for purposes of verifying identity and detecting and preventing unlawful activity; the data is securely stored.

DTS may use test data for research purposes and to enhance the testing program. In such instances, the data are confidential and individual candidates are not identified in published results. Research of this type is reviewed by an institutional review board as appropriate.

DTS uses data security procedures to protect the integrity of personal and test information. Security safeguards include administrative, technical, and physical safeguards over data and data processing systems. For additional information, please refer to the Privacy Policy on ADA.org/OAT and the ADA.org Privacy Notice and Terms of Use.

By registering for the test, you consent to the collection, processing, use, and transmission of your personal information in accordance with the statements outlined in this Guide.

SCHEDULE A TESTING APPOINTMENT
After your application is processed, you will receive an email with schedule instructors. You may then call 800.688.5804 or visit Prometric.com to schedule your appointment to take the OAT.

After your application is processed, Prometric will receive notification of your eligibility for OAT administration.

To allow adequate time for Prometric to receive your eligibility information, please wait 24 hours after receipt of your eligibility email before attempting to schedule a testing appointment.
RESCHEDULE OR CANCEL A TESTING APPOINTMENT
If you wish to reschedule a testing appointment, please visit Prometric.com or call 800.688.5804; additional fees apply (see the Testing Fees section of this Guide). The local test center cannot schedule, reschedule, or cancel your appointment. Appointments must be canceled or rescheduled by the business day prior to the test, at least 24 hours in advance of the scheduled appointment.

NO SHOW POLICY
If you do not appear for your scheduled testing appointment and you do not cancel or reschedule your appointment in advance of the test date, you will forfeit all testing fees. You will be required to submit a new application and pay the fee to schedule a new appointment. Be sure that you receive a confirmation notification when rescheduling your testing appointment. Retain a copy of this confirmation for your records.

EMERGENCIES ON THE DAY OF THE TESTING APPOINTMENT
If an emergency on the day of the testing appointment prevents you from keeping your testing appointment, you may submit a written request for relief to the OAT Program. This request should include applicable documentation and be sent to testingproblems@ada.org within five business days of the appointment.

Examples of emergencies and applicable documentation include, but are not limited to, the following:
• Sudden illness on the test day: Provide a doctor’s note or hospital records confirming you were treated on the day of the test.
• Death in the family on the test day: Provide a copy of an obituary, program from funeral service, or death certificate confirming that the relative passed away or services were held on the day of the test.

Testing appointments affected by emergencies occurring prior to the day of the actual testing appointment should be handled through the rescheduling and cancellation process indicated above.

TESTING PROBLEMS ON THE DAY OF THE TESTING APPOINTMENT

If you experience problems with testing conditions during administration of the test, you must stop testing and notify the test center administrator immediately.

Testing should not be resumed until the issue has been documented and resolved by the test center administrator. Unresolved concerns must be submitted in writing within five business days of the testing appointment to testingproblems@ada.org.

Upon receipt of the information, we will conduct an investigation and notify you of the outcome. Candidates with documented, unresolved testing issues may be offered the opportunity to retest within 30 days.

Scores cannot be canceled or adjusted under any circumstances.
Fees are non-refundable and non-transferable. All fees are in US Dollars. The following indicates OAT 2019 testing fees:

<table>
<thead>
<tr>
<th>FEE TYPE</th>
<th>DESCRIPTION</th>
<th>FEE AMOUNT</th>
</tr>
</thead>
<tbody>
<tr>
<td>OAT Fee</td>

<tr>
<td>6 to 30 business days prior to the testing appointment.</td>
<td>$60</td>
</tr>
<tr>
<td>31 or more business days prior to the testing appointment.</td>
<td>$25</td>
</tr>
</tbody>
</table>

*Saturdays and Sundays are NOT business days

PARTIAL FEE WAIVER

A limited number of partial fee waivers are available per calendar year (January-December) to OAT candidates in cases of severe financial hardship. The waiver covers 50% of the OAT fee, which includes the fee for the test and up to five official score reports requested at the time of application. The waiver does not apply to any charges associated with rescheduling or score reporting after the time of initial application.

Fee waivers are granted on a first-come, first-served basis at the beginning of each calendar year to eligible candidates who have submitted the required documents. Fee waivers will be granted beginning on January 1.

You can obtain additional information at ADA.org/OAT. The OAT Program will review all fee waiver requests and make final decisions regarding fee waivers. Candidates must register for a PIN prior to submitting a fee waiver request.

Candidates could qualify for a partial fee waiver if the following requirements are met:
- Demonstrated financial hardship
- First time taking the OAT
- U.S. citizen or resident alien
- Received financial aid at his/her educational institution

Applicants who have previously received a fee waiver or who have already taken the OAT are not eligible.

Required Documents:
- Fee waiver financial information form
- Educational institution financial aid award letter
- Completed OAT application (submitted after approval/denial decision)
TESTING ACCOMMODATIONS
The OAT Program provides reasonable and appropriate accommodations in accordance with the Americans with Disabilities Act for individuals with documented disabilities or a medical condition who demonstrate a need for accommodations and request accommodations prior to testing.

For more information on accommodations and an explanation of how to request testing accommodations consult the OAT Accommodations Request Form under Apply to Take the OAT on ADA.org/OAT.

An individual is considered to have a disability under the Americans with Disabilities Act if he or she has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment. Major life activities include seeing, hearing, speaking, walking, breathing, performing manual tasks, learning, caring for oneself, and working.

English as a second language, test anxiety, or difficulty reading without an identified underlying cognitive deficit, or failure to achieve a desired outcome are generally not covered by the Americans with Disabilities Act.

Testing accommodations are offered to those with a qualified disability or medical condition. Candidates must request testing accommodations with each application, but will not be required to submit additional documentation for the same disability with subsequent retests. Candidates requesting the same accommodations offered previously by the OAT Program need only submit the testing accommodations form.

REQUEST FOR TESTING ACCOMMODATIONS AND APPROPRIATE DOCUMENTATION
The following documentation will be used to help determine whether you qualify for accommodations under the Americans with Disabilities Act or whether you qualify for accommodations as a result of a medical condition.

The OAT Program requires a complete evaluation of the candidate, as well as a completed and signed Testing Accommodations Request Form, available under Apply to Take the OAT on ADA.org/OAT. A health care professional appropriately qualified to evaluate the disability or medical condition must conduct the evaluation.

If you have a documented disability recognized under the Americans with Disabilities Act and require testing accommodations, you must submit an application to test, the Testing Accommodations Request Form, and the supporting documentation prior to testing. Your submission is not complete until you have provided all three components.

Schedule a testing appointment after a decision has been made concerning your testing accommodation request. Testing accommodations cannot be added to a previously scheduled testing appointment. If you schedule a testing appointment before the approval of testing accommodations, you will be required to cancel the appointment and pay a rescheduling fee.
Procedures for submitting a testing accommodations request are as follows:

- Select ‘Yes’ from the dropdown box on the OAT application requesting testing accommodations. You must receive your eligibility email (with approved accommodations) before you can schedule a testing appointment.
- Submit the following documents to testingaccommodations@ada.org.
  - Testing Accommodations Request Form, which can be found on the Apply to Take the OAT page on the ADA.org/OAT website. This form must be signed and dated, indicating the disability or medical condition and the request for accommodations. Accommodations should align with the identified functional limitation, so the adjustment to the testing procedure is appropriate.
  - Current evaluation report (within the past five years) from an appropriate health care professional. The document must be on official letterhead and must include the professional’s credentials, signature, address, and telephone number. The report must indicate the candidate’s name, date of birth, and the date of evaluation. The report should include:
    - information concerning the specific diagnostic procedures or tests administered. Diagnostic methods used should be appropriate to the disability or medical condition and in alignment with current professional protocol.
    - the results of the diagnostic procedures and tests and a comprehensive interpretation of the results.
    - the specific diagnosis of the disability or medical condition, with an accompanying description of the candidate’s limitations due to the disability or medical condition.
    - a summary of the complete evaluation with recommendations for the specific accommodations and how they will reduce the impact of the identified functional limitation.
  - Documentation of any previous accommodations provided by educational institutions or other testing agencies. If no prior accommodations were provided, the licensed professional should include a detailed explanation as to why no accommodations were given in the past and why accommodations are needed now.

UNACCEPTABLE FORMS OF DOCUMENTATION
Please do not submit the following documents as they will not be accepted:

- Handwritten letters from health care professionals
- Handwritten patient records or notes from patient charts
- Diagnoses on prescription pads
- Self-evaluations
- Research articles
- Original documents (submit copies only)
- Previous correspondence to the JCNDE or the Department of Testing Services; we maintain copies of all correspondence
- Correspondence from educational institutions or testing agencies not directly addressed to the JCNDE
TESTING REGULATIONS AND RULES OF CONDUCT

RULES OF CONDUCT
The OAT Program has established rules that govern the administration of the OAT to ensure that test results accurately reflect candidates’ skills and that no candidate receives an unfair advantage.

Test Regulations and Rules of Conduct help preserve the integrity of the testing process and provide standardized test administration conditions that support accurate skills measurement.

Accessing test content prior to testing, breaching the confidentiality of test content, or any attempt to subvert the testing process represent violations test regulations. Conduct occurring before, during, or after testing that violates the Test Regulations and Rules of Conduct could result in invalidation of test results or other penalties.

You must be truthful in completing your application and must abide by all instructions regarding testing conduct.

Failure to comply with the Test Regulations and Rules of Conduct could result in a determination of the presence of an irregularity, and your test results could consequently be voided. If your results are voided as a result of an irregularity, you could be prohibited from testing for a specified time period or, in egregious cases, from retesting at all. Additionally, you could face civil or criminal prosecution.

By applying for the OAT, you agree to abide by the following Rules of Conduct:
1. You certify that you are the person who has registered for the test for the purpose of gaining admission to optometry school or another health profession education program. You may not take the test for someone else, someone else may not take the test for you, nor may you take the test for any reason other than for the purpose of gaining admission to an optometry or health profession education program. You may not take the test to practice or to obtain an advance review of test content.
2. You will not give, receive, or obtain any form of unauthorized assistance prior to the test, during the test (e.g. in the testing room or when on a break), or subsequent to the test.
3. You will maintain the confidentiality of test content at all times. You will not reproduce or attempt to reproduce test materials through memorization, recording, or other means. You will not provide information relating to test content that might affect the test’s ability to accurately assess candidates’ skills, or that might provide an unfair advantage to other candidates. For example, you will neither make use of nor participate in the sharing or distribution of information regarding test content or answers (via electronic means or otherwise).
4. You will not bring any unauthorized materials, as listed in the Test Regulations and Prohibited Conduct section of this Guide, into the secure testing area. All unauthorized materials must be placed in your assigned locker and may not be accessed while you are testing.
5. You will not remove information about the test (written, printed, recorded, or other) from the test center.
6. You will comply with test center policies and procedures. You will not create a disturbance in the testing center.
7. You will not tamper with the computer testing equipment and facilities.
8. You will cooperate fully with any investigations involving test irregularities. You agree to have your test analyzed to detect aberrances.
9. The OAT is a secure examination protected by U.S. copyright laws. Any unauthorized disclosure of the test’s contents could result in civil liability, criminal penalties, voiding of test results, or other appropriate penalties.
TESTING REGULATIONS AND RULES OF CONDUCT

You may not disclose any test content (in whole or in part) before, during, or after the test to anyone, including but not limited to family, friends, classmates, colleagues, or test preparation organizations. This applies to any content disclosed through discussions, emails, in writing, online (e.g., blogs, social media, websites), or otherwise.

Candidates who receive unreleased test content should immediately forward it to testsecurity@ada.org without reviewing it. Candidates who have been found to be in possession of such information—or to have participated in the distribution of this information—may have their test results voided. Penalties could be imposed subsequent to discovery and investigation of the original incident, which could occur years after the incident itself.

You are encouraged to report activities that disclose information about test content so that the OAT Program can investigate and take necessary action. Report such activity to the OAT Program at testsecurity@ada.org.

TEST CENTER PROCEDURES

Report to the test center at least 30 minutes prior to your scheduled appointment time. If you report late, you might not be allowed to take the test, depending on the time of your arrival and the scheduling of other testing appointments. Prometric test center administrators will determine whether there is sufficient time and space to administer the test. If you arrive late and the test center cannot seat you, you will forfeit the test fee. You must submit a new application and fee if you wish to test.

In cases of inclement weather, a natural disaster, or other local conditions that could cause unavoidable interruptions to testing, Prometric will make reasonable efforts to notify you and reschedule your testing appointment.

You are expected to understand and comply with the Prometric test center regulations. You can review test center information on the Prometric website.

When you arrive at the Prometric test center to take the test, two original, current (not expired) forms of identification (ID), – one primary and one secondary, – will be required. An expired ID that is accompanied by temporary identification or documentation that a new, valid ID has been requested WILL NOT be accepted.

The primary ID must be a government-issued ID, with your photograph, name, and signature. A government ID missing a photograph, name, or signature is unacceptable. Examples of acceptable primary IDs are a driver’s license, or a passport, or a passport card. All IDs, with the exception of passports, must be in English.

The secondary ID must contain your name and signature. Examples of secondary IDs are a debit card, library card, or a credit card, etc.

The name on your IDs must match exactly the name you entered on your OAT application. If the names on your IDs and your OAT application do not match exactly, you will be denied admission to testing, and you will forfeit your scheduled testing appointment and your application fee. You will be required to submit a new application and fee to test.

If you are including a middle name, either the full name or initial is acceptable.
TEST CENTER PROCEDURES (continued)

If you have a name change request, complete the PIN Request Form, available at ADA.org/OAT and email the request to pin@ada.org with appropriate documentation. Your request and the required documentation must be received at least five business days before your testing appointment. Address the email to the attention of OAT Name Change Request. Include your PIN®, a copy of your government issued photo ID, and a copy of the legal name change documents such as a marriage license or court documents.

If you have any questions concerning which types of identification are acceptable, please call the OAT Program at 800.232.1694.

The Prometric test center will electronically capture the identity of each candidate by means of a fingerprint and photograph before candidates can proceed with testing. Electronic capture of this biometric data allows for an easier and quicker return to testing after breaks. Biometric and other identification information will be retained by Prometric and will be utilized for identity verification at potential future test administrations related to optometry education.

Additionally, the test center will visually inspect eyeglasses and hair accessories for cameras as part of the check-in procedures. It may use a detection wand to scan for electronic devices as part of the check-in procedures. Jewelry, except for wedding and engagement rings, is prohibited. You can view the Prometric check-in procedures at Prometric.com.

You will have an opportunity to become familiar with the operation of the testing computer by taking a brief tutorial before the test.

You will be observed at all times while testing. This observation will include test center staff walking through the secure testing lab, as well as video recording of your testing session. Test center staff are required to report behavior that might be in violation of the rules and regulations.

Test center staff are not authorized to answer questions from candidates regarding test content, testing software, or scoring.

The test administrator is responsible for the operation of the test facility, maintaining order, and administering the test according to established procedures. The test center administrator is authorized to dismiss candidates from a testing session for violating the rules or regulations.

If you experience problems with testing conditions, stop testing and notify the test administrator immediately; do not proceed with testing unless the problem is resolved.

Unresolved concerns should be reported to testingproblems@ada.org within five business days of your testing appointment.
TESTING REGULATIONS AND RULES OF CONDUCT

TEST REGULATIONS AND PROHIBITED CONDUCT

The Test Regulations are in place to ensure that test results can be interpreted with confidence as an accurate reflection of candidates' skills. This is particularly important given the role of the test in helping to understand the cognitive skills and aptitude of individuals seeking to become health professionals. Violations of the Test Regulations undermine the test's ability to accurately assess candidates' skills and fulfill the purpose of the test. As a result, the OAT Program treats violations extremely seriously.

You must comply with the Test Regulations, Rules of Conduct, and test center procedures. These preserve the integrity of the testing process, and provide standardized testing conditions that help to ensure no candidate receives an unfair advantage on the test.

It is your personal responsibility to understand and comply with the Test Regulations indicated in this Guide.

Test administrators at test center facilities work with a large number of testing programs covering many fields and occupations. Each of those programs has adopted its own Test Regulations and corresponding Rules of Conduct. If you are unsure of what would be considered appropriate and inappropriate (i.e., prohibited) conduct during test administration, please seek clarification directly from the OAT Program in advance of testing. The OAT Program bears no responsibility for inaccurate information or inappropriate permissions received from test center administrators. If a candidate’s conduct is determined to violate the terms set forth in this Guide, the OAT Program will act to strictly enforce its policies and procedures.

• No personal items are permitted in the secure testing area. Any personal belongings brought to the test center must be stored in a designated locker; storage is limited. Your personal belongings might be inspected. Notes or any materials accessed during testing, or during an unscheduled break, could be confiscated.

Accessing personal belongings or your locker during an unscheduled break violates Test Regulations. Test administrators are NOT authorized to provide you with permission to access personal belongings or your locker during an unscheduled break.

• Items that are prohibited from the secure testing area include, but are not limited to, the following:
  - Books, notes, study materials, scratch paper, tissues, markers, personal earplugs, and headphones not provided by the testing center
  - Dental instruments, models, and materials
  - Slide rules, paper, calculating devices, rulers, and other measuring devices
  - Electronic devices such as cell phones, recording devices, iPods, tablets, and headsets
  - Tote bags, purses, wallets, backpacks, and briefcases
  - Highlighters, pens, erasers, pencils, dictionaries, and translators
  - Food, candy, gum, water, and other beverages
  - Outerwear such as coats, jackets, gloves, and head coverings (except for religious purposes)
  - Good luck charms, statues, religious or spiritual items, and similar objects
  - Medicinal items (except those items approved in advance under testing accommodations)
  - Watches (digital, analog, or smart) and timing devices (a timer is provided on the computer screen during the test)
  - Magnifying devices
  - Jewelry (except for wedding and engagement rings)
TEST REGULATIONS AND PROHIBITED CONDUCT (continued)

- The test center will provide two note boards and two low-odor fine tip markers to use during the test. **Used note boards will be replaced by test center staff upon request.** Scratch paper, pencils, and markers not furnished by the testing center are prohibited.

  You may not write on the note boards before the test begins or during scheduled breaks. The note boards should not be used as measuring devices and should not be folded, bent, distorted, erased, or modified in any manner. You may not remove the note boards from the secure testing area. You may not use the markers on any surface other than the note boards. You may not touch the monitor during testing. All items provided must be returned to the test administrator before leaving the test center.

- Do not engage in conversation with others during testing or while on an unscheduled break. You are strictly prohibited from discussing the test.

- Test center administrators will report the activity of candidates who take unscheduled breaks.

  During an unscheduled break, you may NOT access personal belongings or prohibited items, study or refer to notes or texts, use a telephone, eat or drink any food or beverages, or leave the test center. Test administrators are not authorized to provide you with permission to engage in these activities.

- Although the test is administered under strict supervision and security, testing irregularities sometimes occur. Test results could be voided based upon a breach of test security, invalid testing conditions, or candidate violations of the Test Regulations, Rules of Conduct, or test center procedures as described in this Guide.

If irregularities are detected during the test, or evidence of irregular behavior is disclosed when the test is scored or afterward, those involved will have their test results voided and face appropriate penalties.

If you think you might require any medicinal items during the testing session (such as aspirin or ibuprofen), you must receive permission from the OAT Program in advance of the testing session. This permission is obtained by following the OAT Program’s testing accommodations procedures.

**Failure to comply with the Test Regulations, Rules of Conduct, and test center procedures could result in a determination of the presence of an irregularity, and your test results could be withheld, canceled, considered invalid, or another appropriate penalty could be imposed. You might also be directed to leave the test center before you have completed the test. If your results are withheld or invalidated, or you are otherwise penalized as the result of an irregularity, you could be prohibited from testing and/or other appropriate penalties.**
The OAT Program strives to report results that accurately reflect the skill and knowledge of each candidate. The standards and procedures for administering each test are intended to provide each candidate a comparable opportunity to demonstrate his or her abilities, and to prevent any candidate from gaining an unfair advantage over others.

REASONS FOR WITHHOLDING, VOIDING OR INVALIDATING SCORES
The OAT Program reserves the right to withhold, void, or invalidate any result when, in the Program’s judgment, it is reasonable to question the validity of the result. Reasons for withholding, voiding, or invalidating results, or for imposing other appropriate penalties, could include, but are not limited to, the following:

- Unusual answer patterns
- Atypical score increases from one testing attempt to another
- Discrepancy in, or falsification of, a candidate’s identification
- Information indicating a candidate has engaged in misconduct or a violation of the Test Regulations, Rules of Conduct, or test center procedures
- Sharing of remembered test questions or answers. This includes sharing through social media platforms, online discussion forums, or other means
- Taking a test on behalf of another individual, or having another individual take a test on your behalf
- Falsification of application information or supporting documents
- Falsification of the candidate’s score report
- Inconsistent performance on different sections of the test from one testing attempt to another
- Indication a test administration irregularity has occurred
- Any other information indicating results might not be valid.

CANDIDATE NOTIFICATION AND APPEAL PROCESS
When the OAT Program voids or invalidates test results, it notifies the candidate in writing. This notice includes information about the decision and the procedure for appeal. Results will remain voided until the appeal process has been completed, or the time for appeal has expired.

When the OAT Program voids a previously reported result, it notifies score report recipients that the result has been voided.

CONSEQUENCE OF IRREGULARITY
If it is determined a candidate has engaged in irregular behavior, information regarding this determination becomes a part of the candidate’s OAT record. At its sole discretion, the OAT Program may elect to send a summary report documenting the incident to legitimately interested parties. This would include all parties to whom you have instructed results be sent (both currently and in the future).

In situations where an irregularity has occurred, individuals who are involved or implicated with respect to the occurrence of the irregularity, or who are reasonably believed to have witnessed the irregularity, could be asked and may be required to provide information concerning the irregularity.

The OAT Program reserves the right to pursue other remedies, including prosecution of anyone whose conduct unlawfully undermines the security of the OAT or the integrity of the testing process.
IRREGULARITIES AND APPEALS
An irregularity is defined as a situation in which there is a question about the validity of test results in accurately reflecting the ability and skills of a candidate.

For example, such questions could be raised when
- there is communication between candidates during the testing session.
- unauthorized assistance occurs.
- candidates have inappropriate access to current test content (e.g. remembered test questions or answers are shared by email, online posting, or other means).
- conduct prohibited by the Test Regulations, Rules of Conduct, or test center procedures occurs, or test administration disruptions are present, including natural disasters and other emergencies.

When an irregularity is identified, results for the candidate(s) involved will be voided pending resolution of the corresponding appeal(s). If an appeal is denied or no appeal is filed, the results of the candidate(s) involved could remain voided and/or other appropriate remedies imposed.

Candidates whose results are subject to being voided are notified by written correspondence and provided with a copy of the Optometry Admission Test Appeal Process. Appeals must be submitted in writing within 30 days of notification of the irregularity. Appeals must clearly state the specific relief being requested and include corresponding arguments, evidence, and documentation in support of their request.

The candidate will be notified of the appeal decision approximately 60 days after receipt of the appeal.

When considering an appeal, the OAT Program strives to ensure that test results accurately reflect candidates’ skills, and that all candidates have an opportunity to demonstrate their ability and potential for success in optometry school that is equal to, but not greater than, the opportunity provided to other candidates.

The OAT Program will void OAT results when there is a reasonable and good faith basis to do so. If the OAT Program determines that voiding results is not warranted under the circumstances, the results will be released.

Candidates should be aware that the OAT Program considers irregularities, other than natural disasters and emergencies beyond the control of the candidate, to be a serious breach of the testing process.

The OAT Program strives to handle irregularities and their investigation in a professional, fair and objective manner. The OAT Program strives to handle irregularities in a confidential manner.

Candidates should be aware that reports of irregularities may have consequences beyond the voiding of scores or other appropriate penalties, if information regarding the irregularities is brought to the attention of school authorities, regulatory agencies, or other entities by other sources, or if information surfaces within the context of an investigation into the irregularity.

Candidates are encouraged to report suspicious activity or observations of violations of Test Regulations to the OAT Program at testsecurity@ada.org.
ARBITRATION REQUIREMENTS
Arbitration has become an increasingly common way to resolve legal differences. Generally speaking, the advantages of arbitration over traditional lawsuits are that arbitration is less expensive and issues are resolved in less time. If a candidate wishes to pursue a dispute that has not been resolved by the appeal process mentioned above and detailed in the Limited Right of Appeal for Examination Candidates, the candidate must use the procedure described in the following Agreement to Arbitrate.

AGREEMENT TO ARBITRATE

1. In the event that any legal dispute arises between you and the American Dental Association in connection with your participation in the Optometry Admission Test where that dispute is not resolved by the appeals process detailed in the OAT Guide and elsewhere, you agree that the exclusive means for resolving the dispute shall be Binding Arbitration as described by the terms of this Agreement. This means that you waive the rights you may have to resolve the dispute in a court of law, or by any other means that might otherwise be available to you.

2. The American Dental Association ("ADA") agrees to be similarly bound except that the ADA reserves its full rights to pursue injunctive and other appropriate relief in any state or federal court in cases of unfair competition or violations of, or threats to violate, any intellectual property rights of the ADA. With respect to any action filed by the ADA pursuant to this paragraph 2, you consent to submit to the jurisdiction of the state or federal court in which the ADA seeks relief.

3. Arbitration proceedings initiated pursuant to this Agreement to Arbitrate shall be conducted in accordance with the then current Consumer Arbitration rules of the American Arbitration Association. The Arbitration and any proceedings relating to it shall be held in Chicago, Illinois. The arbitrator’s award shall be binding and may be entered as a judgment in any court of competent jurisdiction. Information about the American Arbitration Association, its rules, and its forms are available from the American Arbitration Association, 335 Madison Avenue, New York, New York 10017-4605.

4. In the event of Arbitration, the parties shall bear their own costs and attorneys’ fees associated with the Arbitration proceedings, unless the arbitrator directs one of the parties to pay the other’s costs, or attorneys’ fees, or both.

5. To the fullest extent permitted by law, no Arbitration brought pursuant to this Agreement shall be joined to any Arbitration involving any other party whether through “Class Arbitration” proceedings or otherwise.

6. This Agreement is part of the Application to take the Advanced Dental Admission Test. Your assent to be bound by it is a requirement for taking the test, but you can only sit for the test if you also fulfill all other conditions imposed by the American Dental Association.
