However, if the applicant passed a general dentistry examination or holds a general dentistry license and practices a specialty, then decides not to continue that specialty but to practice only general dentistry, the applicant is eligible for licensure by credentials as a general dentist.

- (3) FALSE. A false statement or claim is one which:
- a. Contains a material misrepresentation of fact or law.
- b. Omits a material fact rendering the statement or claim when considered as a whole false.
- (b) A dentist shall have ultimate responsibility for all advertisements which are approved by him or her or his or her agents or associates and the dentist shall be responsible for the following:
- (1) Broadcast advertisements shall be recorded, approved by the dentist, and a recording of the actual transmission shall be retained by the dentist for one year following the final appearance or use of the advertisement. The dentist is responsible for making copies of the advertisement available to the board within 10 days following a request by the board.
- (2) Written or printed advertisements shall be approved by the dentist and a copy of the publication in which the advertisement is displayed shall be retained by the dentist for one year following the final appearance or use of the advertisement. The dentist is responsible for making copies of the advertisement available to the board within 10 days following a request by the board.
- (3) Other forms of advertisement shall be approved by the dentist and the contents and specifications, where applicable, shall be retained by the dentist for one year following the final appearance or use of the advertisement and the dentist is responsible for making copies of the advertisement available to the board within 10 days following a request by the board.
- (c) A dentist may not hold himself or herself out as a specialist or advertise specialty status unless the specialty is approved by the board.
- (d) Dentists who are not specialists in specialties approved by the board may nevertheless advertise that their practice is limited to a specific area of dentistry only if the dentist has obtained membership in or otherwise has been credentialed by an accrediting organization which is recognized by the board as a bona fide organization for such an area of practice.
- (e) Notwithstanding any provision of this section to the contrary, a dentist licensed pursuant to this chapter may not hold himself or herself out as a specialist or advertise membership in a specialty recognized by an accrediting organization, unless the dentist has continuously held himself or herself out as a specialist since December 31, 1964, in a specialty recognized by the board or has completed a specialty education program approved by the board and the Commission on Dental Accreditation and meets either of the following qualifications:
- (1) Is eligible for examination by a national specialty board recognized by the board.
- (2) Is a diplomate of a national specialty board recognized by the board.
- (f) A dentist licensed under this chapter may not represent to the public without appropriate disclosure that his or her practice is limited to a specific area of dentistry other than a specialty area of dentistry authorized under subsection

- (e) unless the dentist has attained membership in or has otherwise been credentialed by an accrediting organization which is recognized by the board as a bona fide organization for such an area of dental practice. In order to be recognized by the board as a bona fide accrediting organization for a specific area of dental practice other than a specialty area of dentistry authorized under subsection (c), the organization must condition membership or credentialing of its members upon all of the following:
- (1) Successful completion of a formal, full-time advanced education program that is affiliated with or sponsored by a university-based dental school that is beyond the dental degree, is at the graduate or postgraduate level, and is of at least 12 months in duration.

If such an area of dental practice is officially recognized by an organization which the dentist desires to acknowledge or otherwise reference in the dentist's announcement, solicitation, or advertisement, the same announcement, solicitation, or advertisement shall also state prominently: "(NAME OF REFERENCED ORGANIZATION) IS NOT RECOGNIZED AS A BONA FIDE SPECIALTY ACCREDITING ORGANIZATION BY THE BOARD OF DENTAL EXAMINERS OF ALABAMA."
- (h) The purpose of this section is to prevent a dentist from advertising without appropriate disclosure membership in an organization which may be perceived by the public as recognizing or accrediting specialization or other unique competencies in an area of dentistry that is not recognized or accredited by the board in accordance with this section. The purpose of this section is also to prohibit a dentist from advertising a specialty or other area of dental practice without appropriate disclosure unless the special competencies held by the dentist satisfy the requirements of subsections (d) and (f). The Legislature finds that dental consumers can reasonably rely on these requirements as satisfactory evidence of a dentist's attainment of meaningful competencies in the specialty or other bona fide area of dental practice advertised. The Legislature also finds that this process for the recognition of dental specialties and other bona fide areas of dental practice is the least restrictive means available to ensure that consumers are not mislead about a dentist's unique credentials.
- (i) A dentist who lacks membership in or certification, diplomate status, or similar credentials from an accrediting organization approved as bona fide by the board may announce a practice emphasis in any other area of dental practice if the dentist incorporates the disclaimer set forth in subsection (g).
- (j) The board shall promulgate rules and regulations delineating examples of advertising which would be considered false, fraudulent, misleading, or deceptive.
